5. Your password details are given below:

- a) If you are already registered for e-Voting, then you can use your existing password to login and cast your vote.
- b) If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.
- c) How to retrieve your 'initial password'?

- i. If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL from your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains

your 'User ID' and your 'initial password'.

- ii. If your email ID is not registered, please follow steps mentioned below in process for those Shareholders whose email id are not registered.
6. If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:
  - a) Click on "**Forgot User Details/Password?**" (If you are holding shares in your demat account with NSDL or CDSL) option available on [www.evoting.nsdl.com](http://www.evoting.nsdl.com).
  - b) "**Physical User Reset Password?**" (If you are holding shares in physical mode) option available on [www.evoting.nsdl.com](http://www.evoting.nsdl.com).
  - c) If you are still unable to get the password by aforesaid two options, you can send a request at [evoting@nsdl.co.in](mailto:evoting@nsdl.co.in) mentioning your demat account number/folio number, your PAN, your name and your registered address.
  - d) Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.
7. After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.
8. Now, you will have to click on "Login" button.
9. After you click on the "Login" button, Home page of e-Voting will open.

**STEP 2 : CAST YOUR VOTE ELECTRONICALLY ON NSDL E-VOTING SYSTEM.**

1. After successful login at Step 1, you will be able to see the Home page of e-Voting. Click on e-Voting. Then, click on Active Voting Cycles.
2. After click on Active Voting Cycles, you will be able to see all the companies "EVEN" in which you are holding shares and whose voting cycle is in active status.
3. Select "EVEN" of the Company.
4. Now you are ready for e-Voting as the Voting page opens.
5. Cast your vote by selecting appropriate options i.e. assent or dissent, verify/modify the number of shares for which you wish to cast your vote and click on "Submit" and also "Confirm" when prompted.
6. Upon confirmation, the message "Vote cast successfully" will be displayed.
7. You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.
8. Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

**Item No. 5**

Based on the recommendation of Nomination and Remuneration Committee, the Company has considered and approved appointment of Ms. Gursimran Kaur Mann as the Managing Director of the Company with effect from February 14, 2019 to August 01, 2020, and the resolution was passed at the 8th Annual General Meeting of the members of the Company held on September 25, 2019. Now, as term of her appointment expired on August 01, 2020, the Board of Directors of the Company ('the Board') on the recommendation of the Nomination and Remuneration Committee and subject to the approval of the members of the Company and subject to the No objection of the lenders of the Company, has re-appointed Ms. Gursimran Kaur Mann as the Managing Director of the Company for a period of one year w.e.f August 02, 2020 to August 01, 2021, at the remuneration as set out in the resolution subject to the limits prescribed under the provisions of Schedule V Part II Section II to the Companies Act, 2013, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time and such other approvals as may be required under law. The State Bank of India, lead bank has provided it's no objection for continuation of appointment of Ms. Gursimran Kaur Mann as Managing Director for a period of One year. The Company has also approached other lenders for their individual no objection letters, which are awaited.

Brief Profile of Ms. Gursimran Kaur Mann is as follows:

Ms. Gursimran Kaur Mann, Managing Director of the Company is a graduate in Economics and Political science from USA and has an MBA from London Business School. She has previously interned at Nestle India, Cargill Geneva, and ED&F Man Brazil. She joined Simbhaoli in the year 2005 and has played a key role in introducing market forecasting, hedging and pricing models in the Company as an effective risk management strategy. She was inducted to the Board of the Company as an executive director in year 2011. She has been discharging the key role as head of the Company's commercial, marketing, trading, legal, operations, sales including domestic international and trading business and all other operations along-with the Company's joint venture businesses. Ms. Mann has been the youngest member of the Indian Sugar Mills Association (ISMA) and served on committees for all the major national commodity exchanges, the Indian Sugar Export Corporation (ISEC) and the Confederation of Indian Industry (CII).

The Managing Director of the Company is proposed to be vested with all the key responsibilities of management and shall work under the guidance of the Board of Directors of the Company. Ms. Mann is holding 41,86,672 Equity Shares in the Share Capital of the Company. She is the daughter of Mr. Gurmit Singh Mann, the Chairman of the Company.

Ms. Gursimran Kaur Mann as Managing Director, has been reporting to the Chairman of the Company and her role includes supervision and regulation of the commercial, financial and legal functions of the Company, including implementation and review of the commercial reports, plan and execute long-term and short term earnings deriving strategies, setting and implementing commercial planning of the production based on inputs from

operations, budget and gap forecasting analysis and operating plans of the manufacturing units of the Company, supervision and regulation of their operations, setting out the production efficiencies as per the business plans, review production and operating reports, resolve the operational, manufacturing and other related issues to achieve planned cost, quality, and delivery commitments to achieve financial plans with regards to revenue, cost control, profit and debtors management and to carry out any other function as may be assigned by the Board of directors or Chairman of the Company from time to time.

The Managing Director has been implementing the functions assigned by the Board from time to time, including but not limited to making recommendations to the Board with respect to the investments/disinvestments decisions, senior level appointments, retrenchments and increments, collaborations/joint ventures/ further capital issues, borrowings, appointment of internal auditors/statutory auditors/other intermediaries as may be required under laws as applicable to the Company and to take all extraordinary decisions and undertake activities, which are necessary to run the day to day operations of the Company and to carry out other supervisory and regulatory functions, including delegation/assignment of duties in the manner as may be required from time to time.

Although, the Company has well-structured operating units, good quality products and a reliable work force; yet on account of vagaries of the sugar industry, its high fixed cost structure, low back up from the by-products and efficiency levels, the Company is passing through a phase characterized by lack of liquidity. A mix of factors, such as higher recoveries, government's mandatory export quota, successful ethanol blending program and sugar production forecast for the next season are indicating towards good business prospects of the sugar industry. Considering the aforesaid facts, and also to organize the businesses of the Company in the manner, the Company is expected to come out from its current problems.

In the event during the tenure of Ms. Gursimran Kaur Mann, the Company has no profits, or its profits are inadequate, the remuneration payable would require approval of the members by way of a Special Resolution. Hence, it is proposed to appoint Ms. Gursimran Kaur Mann as the Managing Director of the Company for a period of one year from August 02, 2020 to August 1, 2021 (both days inclusive) at a remuneration as set out in the Resolution subject to the limits prescribed under the provisions of Schedule V Part II Section II to the Companies Act, 2013.

The additional information required to be disclosed pursuant to schedule V Part II Section II to the Companies Act, 2013 is annexed to this Notice as **Annexure-A**. The disclosure under Regulation 36 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 is annexed to this Notice as **Annexure-B**.

The Board, accordingly, recommends the resolution set out under item number 5 for approval of the members of the Company as a Special Resolution.

None of the promoters, directors, key managerial personnel or their relatives, except Mr. Gurmit Singh Mann and Ms. Gursimran Kaur Mann, their relatives and their jointly controlled entities are concerned or interested, financially or otherwise, in passing of the aforesaid resolution except to the extent of their shareholding as members of the Company.

#### **Item No. 6**

## CHAIRMAN'S MESSAGE

### Dear Shareholders,

During the Financial Year 2019-20, in spite of prevailing challenges, your Company has delivered improved operational and financial results due to the continued support of all its stakeholders.

The Company operated and ran all the plants with an optimal product mix of Sugar, Ethanol and Power as part of its continued focus on diversification towards allied products. Over time, your Company has emphasized looking at the composite value of the sugarcane being supplied to us by our partner farmers as the way forward towards a sustainable business proposition. In addition, we have continued our emphasis on manufacturing best-in-class sugar and other consumer products and expanding our pan- India sales and distribution network to increase share holder value.

Through its continued emphasis on efficient operations, your Company achieved better sugar yields during the sugar season 2019-20 at all three sugar plants as compared to the previous year. All three distilleries have shown steady growth in terms of ethanol production in comparison to last year as well. In addition, we have enhanced the working capacity of one of our distilleries as well to further boost production.

Recently, the Company has also launched its range of Trust Hand Sanitizers to help the nation, especially its rural districts, to combat the COVID – 19 Pandemic. It was a matter of great pride for all of us that within a week of the Lockdown, the Company's scientists, engineers and production experts came together to develop the range of hand sanitizers that was supplied to various Government institutions and offices as well as distributed through our extended retail distribution network.

The spread of COVID-19 pandemic worldwide and resultant nation wide lockdown had caused disruption of supply chain across businesses and industries in India. However, since the Company is engaged in the manufacturing of essential commodities, timely steps taken by the government had ensured regular operations of the sugar mills in the state of Uttar Pradesh. The COVID-19 pandemic has obviously impacted the institutional demand for sugar, along with demand for sugar in the travel and hospitality sector, but we expect that it will gradually and steadily pick up again as the nation continues to successfully combat the pandemic.

One of the key measures announced by the Government of India has been to leverage the sugarcane surplus in the country as a resource to meet the energy needs of the nation. Accordingly, it has pushed forward a bold policy encouraging the diversion of sugarcane juice and B-Heavy molasses to make green fuel for the country. The Government has revised the ethanol prices upwards for the supply to Oil Marketing Companies (OMCs). Such policy measures will be helpful for achieving the ethanol blending program targets set by the Government of India to meet the fuel demands of the country through domestic sources such as ethanol. This could also herald a significant transformation of the Sugar Industry with significant benefits accruing especially to the rural economy of India.

In the current sugar season 2020-21, though Indian sugarcane harvesting might get affected amid the pandemic situation prevailing in the country, the Company has focused on continuing to work closely with the thousands of farmers who rely on your Company for their sustenance and livelihoods. We have further stepped up efforts towards better cane development and farm management, through adoption of techniques such as intercropping, conservation of energy and water resources through drip irrigation, waste-water management, and rain-water harvesting. We hope that these efforts will continue to bear fruit in the coming seasons.

As you know, the Company has over the last decade also launched and developed various consumer brands, with a focus on quality and innovation across the staples, food, and beverages category. In addition to the flagship brand, 'Trust', the portfolio has expanded considerably to include popular brands such as Sunehra and G-Low as well. Going forward, your Company plans to also make continuous efforts towards development of consumer-centric products, in response to changing consumer needs. The Company shall give more emphasis on new channels of distribution such as online market places, direct-to-consumer, and expanded rural distribution. As part of our effort to emerge as a consumer-centric organization, the Company has initiated e-commerce functionality through our revamped website to make its FMCG products available to the door step of the customers.

Finally, I wish to thank to our team of employees, farmers, all the lenders, associated vendors, as well as the shareholders, investors, state administration and many other stakeholders, who have all reposed faith and shown confidence in the Company's Management during this unprecedented situation. With your support, we are determined to move ahead and take the Company towards greater heights and leadership in the industry.

Please stay safe and keep your families and loved ones safe.

With Best Wishes,

Place: Dharamshala  
Date: Nov 24, 2020

## BOARDS' REPORT

### To the members of Simbhaoli Sugars Limited

Your directors have pleasure in presenting the Ninth Board's Report together with management discussion and analysis report for the financial year ended on March 31, 2020.

### MANAGEMENT DISCUSSION AND ANALYSIS

#### Global Sugar Industry Overview

The global production of sugar for season 2020-21 is fore cast up 22 million metric tons (mmt) to 188 mmt (raw value) due to higher production in Brazil, India, and Thailand. The consumption is expected to rise to a new record due to growth in markets such as India and is projected to continue to draw lower stocks despite are bound in output. The exports are forecast up sharply with rising supplies. The global production forecast is given below:

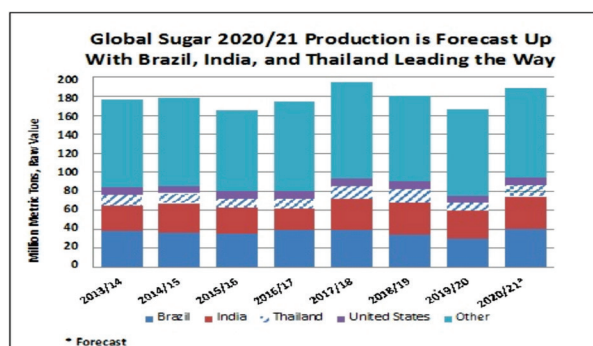

**Brazil's** production is forecast to rebound 9.6 mmt to 39.5 mmt raw value as initial concerns about the August-October dry spell in 2019 were off set by steady January-March, 2020 rainfall that improved the sugarcane harvest. The gasoline prices are expected to drastically change the dynamics for the Brazilian sugar/ethanol industry, negatively affecting the ethanol industry and significantly increasing sugar production.

**Thailand's** production is forecast to recover 4.7 to 12.9 mmt raw value on favourable cane yields and sugar extraction rates. The consumption is expected to continue increasing due to demand for direct sugar consumption and food-processing. With favourable supplies and global demand, exports are forecast at a record 11.0 mmt raw value and stocks are expected to be the lowest level in 8 years.

**China's** production is forecast to recover from the previous year's drought, up 0.5 mmt to 10.7 mmt raw value, primarily due to a rebound in cane sugar production in southern China. The consumption remain unchanged, imports are up slightly, and stocks are expected to fall for a sixth consecutive year as government policies continue to discourage stockholding.

**India's** production is forecast to rebound 17 percent to 33.7 mmt as above average water reservoir levels are expected to boost yields and to incentivize growers to harvest additional acreage. The consumption is forecast at a record due to a growing economy.

The production forecast is presented by way of below graph:

World Agricultural Outlook Board -USD

The global sugar prices were hovering around 14.5 cents per pound since mid-January 2020. However, with the recent im-

pect of fall in crude oil prices, expectation of Brazil increasing sugar production & due to spread of the coronavirus diseases (COVID-19) pandemic, there has been a decline in the global prices as well. The raw sugar prices in the international market were down by 20% to 11.8 cent per pound in March 2020 from 14.8 cents per pound in February 2020.

\*The domestic sugar production is likely to increase to 30.5 Mmt in 2020-21, after adjusting impact of diversion of B-heavy molasses and sugarcane juice for ethanol manufacture. Source – ISMA and trade estimates

With an opening balance of 14.5 mmt in October 2019, sugar production of 27.2 mmt, expected domestic sales of 25 mmt and exports of 5.2 mmt during the current season, the opening stocks in October 2020 has been estimated at 11.5 mmt. With the forecast of a bountiful monsoon, domestic sugar production is estimated at 30.5 mmt in the 2020-21 crushing season, with an increase by 12% than the production of 27.2 mmt this season, assuming normal rainfall and other optimum conditions. The pan India cane acreage has been pegged at 5.23 million hectares (MH) in 2020-21, 8 per cent higher than this season's cropped area of 4.84 MH. Due to higher cane availability and surplus sugar production, it is estimated that a larger quantity of cane juice and B-heavy molasses will get diverted for ethanol production.

In coming months, as and when the lockdown is lifted across States, sugar consumption is expected to pick up. Sugar is an essential commodity and with the continuation of packaged commodities in the Fast Moving Consumer Goods (FMCG) and reopening of restaurants, café, sweet shops, bakeries and other eatable outlets, the demand can't remain low for a long period of time.

As of May 31, 2020, the production in the north Indian state of Uttar Pradesh was down at 12.6 mmt. The western state of Maharashtra produced 6.1 mmt over the same period, reflecting the worst impact of the dry season in 2019. Karnataka produced 4.30 mmt until May 2020.

In the north and south, the sugar cane is still available for crushing while cane stocks for processing have already been exhausted in Maharashtra. Hence, the mills in northern and southern India are still producing sugar, while mills in the western region have stopped crushing cane during April 2020.

### Price Trend

The ex-mill domestic sugar price for financial year 2019-20 is ranging between Rs 31,500 to Rs 34,200 per MT as compared with the previous year ranging between Rs 26,500 to Rs 33,000

per MT, due to the measures taken by the Government of India to safeguard the domestic sugar industry. Reduced inventory, higher exports and the minimum support price (MSP) on sugar, which will protect margins, are, in fact, positives for sugar mills.

Also, despite lower prices globally, Indian sugar mills have been receiving a premium for their sugar from Indonesia and Iran. Therefore, the current sugar season ending September 2020 is likely to finish with a lower closing stock than in the previous year.

### Sugarcane

The Government of India has been considering the minimum selling price of sugar with an increase of Rs 2 per kg from existing Rs 31 per kg in order to help millers to clear cane dues of about Rs 22,000 Crore to farmers, while the Commission for Agricultural Costs and Prices has recommended raising the fair and remunerative price (FRP) of sugarcane by Rs 10 a quintal to Rs 285 for 2020-21. Other measures also being taken to ensure early clearance of substantial cane arrears to farmers. Of the Rs 22,000 Crore arrears, about Rs 17,683 Crore is based on the FRP rate, while the rest is based on SAP rates.

### Domestic ethanol Industry

The Indian ethanol market is slated to grow and the Government has planned to enhance ethanol production to 9 billion litres from 3.55 billion litres in order to achieve the blending rate of 10% by 2022. The Government has given approvals to around 350 new plants in sugar mills for adding 5.5 billion litres of capacity entailing an investment of ₹ 18,000 Crore, for that purpose.

Ethanol can be produced directly from cane juice as well as from B-grade and C-grade molasses. The price of ethanol from sugarcane juice has been fixed at ₹59.48 per litre while ethanol extracted from B-grade molasses is priced at ₹54.27 per litre and the price of ethanol extracted from C-grade molasses has been fixed at ₹43.75 per litre. India is required to have a minimum of 4.25 billion litres of ethanol to meet the 10% blending target.

In the previous year, an aggregate of 1.91 billion litres of ethanol was blended with petrol, which resulted in 5.5% blending rate, as against 175 billion litres in 2019-20, which may result 4.5% blending in this year. The government plans to divert 8 lakh tonnes of surplus sugar in each of the next two years (2021- 2022) for ethanol production with the objective of maximizing profitability earned by Indian sugar companies.

### GOVERNMENT MEASURES AND POLICIES

The Government of India has implemented various measures/initiatives are enumerated below:

**March 2019:** The GOI has notified new schemes for extending financial assistance to sugar mills for enhancement and augmentation of ethanol molasses production capacity.

**July 2019:** The GOI, with a view to improve liquidity of the sugar

industry; enabling them to clear cane price arrears of farmers and to stabilize domestic sugar price, notified the Scheme for Creation and Maintenance of Buffer Stock of 40 Lakh MT of sugar by the sugar mills for one year with effect from August 1, 2019. The funds to be provided to the sugar mills as reimbursement of the carrying cost towards maintenance of the buffer stock are to be used firstly for payment of cane price dues of farmers for the current sugar season 2018-19 and 2019-20 as also for arrears of previous sugar seasons.

**Sept 2019:** Pursuant to the Scheme for providing assistance to sugar mills for sugar season 2019-20, the Maximum Admissible Export Quantity (MAEQ) in respect of each sugar mill has been allocated.

**Nov 2019:** The GOI has allowed those sugar mills which had partially exported their Minimum Indicative Export Quota (MIEQ) of 2018-19 sugar season till 30.09.2019 to export the balance quantity of their MIEQ of 2018-19 sugar season by 31.12.2019, over and above MAEQ allocated for 2019-20 sugar season.

**March 2020:** The Distilleries were given permission by the State Administration to make hand sanitizers to meet the requirement arising out of the spread of Coronavirus diseases (COVID-19) Pandemic. With this sufficient quantity of hand sanitizers manufacturing capacities has been created in the country using ethanol as the key raw material.

### BUSINESS OVERVIEW

#### Business Description: Operating Capacities

Simbhaoli group was started as a partnership firm in 1933 by Sardar Raghbir Singh Sandhanwalia and, in 1936, it was incorporated as a private limited company. In 1989, it went public and has been listed on Indian Stock Exchange for the past 30 years. In 1992, it acquired a distillery (owned by the family as an independent company) and thereby converted the Simbhaoli sugar plant into an integrated sugar complex. At present, Simbhaoli is part-owned by the third and fourth generations of this family, represented by Mr Gurmit Singh Mann, Chairman of the Company.

The group has three sugar complexes located at Simbhaoli (Western Uttar Pradesh), Chilwaria (Eastern Uttar Pradesh) and Brijnathpur (Western Uttar Pradesh), having an aggregate sugarcane crushing capacity of 19,500 tons crushed per day (TCD) including asugar refining capacity of 1200 tons per day (TPD) forraw sugar processing, interchangeable with cane crushing capacities while the sugarcane is not available during off-season.

Facilities	Cane Sugar (tcd)	Alcohol/ethanol (kld)	Power (mwh)	Sugar refining (tpd)
Simbhaoli (Western UP)	9,500	90	62\$	800
Brijnathpur (Western UP)	4,000	60	8	400
Chilwaria (Eastern UP)	6,000	60	38\$	-
<b>Total</b>	<b>19,500</b>	<b>210</b>	<b>108</b>	<b>1200</b>

\$Simbhaoli Power Private Limited, subsidiary company

The sugar business is integrated with alcohol distillation and power generation. The power co-generation units of its subsidiary, Simbhaoli Power Private Limited located within the Simbhaoli and Chilwaria complexes are capable to generate bio-mass based power aggregating 100 mwh for supplying the power for the captive consumption of the sugar plants and sale of surplus power to the UP-State grid under the power purchase agreements.

### **Joint Venture Companies**

The Company has a joint venture arrangement with Sindicatum Captive Energy Singapore, (SCES) a clean energy fund in respect of its subsidiary Simbhaoli Power Private Limited (SPPL) engaged in the cogeneration of power from bagasse and other bio fuels. During the year, SCES has transferred all its shareholding, rights and obligations in the share capital of SPPL to Sindicatum Bagasse India Private Limited, a private limited Company incorporated and registered under the laws of Singapore, which is an affiliate of SCES.

SSL also has a joint venture with ED&F Man Holdings BV, and Volcafe Pte Ltd, in respect of Uniworld Sugars Private Limited (USPL). During the year 2017, due to continuous losses, the USPL business, having a 1000 TPD (300,000 mt per annum) capacity sugar refinery near Kandla Port, Gujarat was discontinued, the details mentioned elsewhere in this report.

### **Impact of Industry Scenario on Business of the Company**

Indian sugar industry has been facing difficulties on account of high sugar production in the country since Financial Year 2016-17 resulting in surplus sugar. For the year ended March 31, 2020, and previous years, the Company has incurred losses due to high sugarcane costs fixed by the Governments and comparatively lower prices of finished goods which are also being regulated and controlled and other external factors. The operations of the Company though remained intact, however due to continuing losses, its net worth has been eroded resulting in its failure in meeting its payment obligations to lenders and sugarcane farmers in terms of respective agreements and understanding.

Meanwhile, recognizing the industry requirements, the Government has implemented a number of measures to improve the financial health of the sugar industry, including support for liquidation of cane arrears, fixing minimum obligation for export to manage the sugar inventory, fixation of Minimum Support Price (MSP) of sugar, providing cash subsidies on production and export of sugar with allocation of MIEQ/MAEQ, and mandatory blending of ethanol with petrol at certain level with remunerative price of ethanol. In addition, pursuant to an order of Hon'ble High Court of Uttar Pradesh, pronounced in favour of sugar industry, the sugar industry as well as the Company is confident to receive much awaited amounts being accrued benefits due to it from state government under the erstwhile New Sugar Industrial Promotion Policy 2004-08. All these measures are expected to reflect in revival of the sugar industry on sustainable basis.

Based on these positive steps, along with other internal measures, the management believes that operations at its manufacturing facilities will remain continued in the near foreseeable future on regular basis.

On account of delays in servicing of loans, the lenders to the Company have initiated recovery proceeding at various forums, including filing of application before Hon'ble National Company Law Tribunal under Section 7 of the Insolvency and Bankruptcy Code, 2016 by two of the lenders and approaching Debt Recovery Tribunal (DRT) for recovery of their dues. One of the lenders had declared the Company and Guarantors to the credit facility, as Willful defaulters, which has been set-aside by the Hon'ble Chandigarh High Court. Against a criminal complaint filed by one of the lenders with the investigating agencies, the enforcement directorate had passed an attachment order against certain assets of the Company to the extent of ₹ 109.80 Crore, against

which the Company has preferred an appeal with the appropriate authority.

The Company has submitted a comprehensive debt resolution proposal with all the commercial banks and realignment of dues with other lenders, commensuration with its future cash flows. The majority of commercial lenders have shown their inclination to accept the debt resolution proposal of the Company.

### **Impact of Covid-19 and Nation-wide Lockdown on the Operations of the Company**

The spread of Coronavirus diseases (Covid-19) pandemic and nationwide lockdown has caused disruption of supply chain across businesses and industries in India. Since the Company is engaged in the manufacturing of essential commodities, timely steps taken by the government have ensured regular operations of the sugar mills in UP. However, Covid-19 crisis, has adversely impacted domestic demand of sugar and of ethanol during complete lockdown periods. Under the directives of Ministry of Home affairs and State Government, the Company has started manufacturing of hand sanitizers in its distillery divisions. The demand for the Company's products is expected to recuperate with the gradual lifting of nation wide lockdown by the Government.

The Company has considered the potential impact of Covid-19 and related restrictions on the carrying amount of inventory and financial and non-financial assets and based on the information available to it up to the date of approving the financial statements written down the value of inventory to net realizable value, wherever required, and made provisions in financial and non-financial assets. However, the impact of Covid-19 as well as negative outlook of sugar sector on the carrying amount of its property, plant and equipment and consequential impairment could not be ascertained and provided for due to non-availability of requisite information on account of lockdown restrictions.

The ongoing Covid-19 pandemic is expected to put pressure on the sugar consumption patterns as there are curbs on social gatherings and outings. The industry is also facing reduced off-take from beverage and other FMCG companies amid the lockdown. This has even led to fall in domestic & international sugar prices recently.

### **Manufacturing of Liquid Hand Sanitizers & Disinfectants**

Company's manufacturing units located in rural areas of Uttar Pradesh have initiated production of Liquid Hand Sanitizers & Disinfectants from April 2020 to help the nation, and especially its rural districts to combat the Covid-19 Pandemic. The Company will be utilizing the existing PAN India distribution network of its FMCG Brand, Trust, to distribute the sanitizers & disinfectants to not just lakhs of farmers and the local communities in UP, but to reach people in Rural Districts across the country. The Company's goal is to ensure its Sanitizers reach at least 50% of the Rural Districts of India. For this, the Company is working on making the sanitizers extremely affordable and also tailoring the packaging formats for rural India. This will become a shining example of the power of "For Rural India, by Rural India". The Company is proud to support the efforts of the Governments of India and State of Uttar Pradesh as well as communities across the country in fighting the Covid-19 pandemic.

### **Legal proceedings of investigation in the matter related to complaint filed by Oriental Bank of Commerce (OBC)**

During the year 2017-18, the Oriental Bank of Commerce (OBC), one of the lenders arbitrarily initiated recovery actions against the Company in respect of its restructured corporate loan and also filed a criminal complaint in an arbitrary and wrongful manner in respect of original loan facilities, without the consent of the other lenders and without affording any opportunity to the Company to present its case. The Company and its management have refuted the charges on their part, and provided adequate documents while fully cooperating with the investigation. They have reiterated its commitment for repayment to all the lenders on the basis of future cash flows. Steps initiated by OBC have delayed the ongoing debt resolution process of the Company and adversely affected its business. Based on legal advice, the Company has been taking appropriate actions at the relevant forums including but not limited to seeking appropriate counter claims.

### BUSINESS SEGMENTS

**Sugar Operations:** Sugar production has decreased due to agro-climatic conditions. Moreover, the rainfall in sugar season 2019-20 is higher as compared to the last sugar season 2018-19, due to which the cane maturity was not up to the mark and hence resulting in lower recovery across the entire state of Uttar Pradesh. Similarly, this has impacted the Distillery operations as Bio composting was hampered due to adverse weather.

**Distillery Operations:** During the sugar season 2019-20, the distilleries operations have been running at lower capacities due to rain, foggy weather, restriction during festivals, and shortage of bagasse/fuel.

**Branding and specialty Sugar segment:** In present Covid-19 scenario where online sales in India is rapidly spreading its wings and becoming the norm for fast growing businesses, your Company is putting our best to emerge as an organization which provides easy and early availability of its products to the doorstep of the customers. The Company has introduced e-commerce functionality on a wide range of its products through its Direct-to-consumer e-commerce website that will house its FMCG offerings. [www.shop.simbhaolisugars.com](http://www.shop.simbhaolisugars.com).

The Company has been consistent in developing its sugar brand, 'Trust'. The sales and marketing infrastructure development exercises for distribution through modern retail and wholesale trade channels have been further strengthened during the year. Trust branded sugar sachets have created vast acceptability and leadership in the hospitality industry. Your Company has emerged as one of the largest sellers of Specialty Sugar, which includes sachets, consumer packets, pharmaceutical grade sugar etc. and it commands premium over and above the bulk sugar prices. Last year, the Company has launched its diabetic friendly Sugar brand with the name and style G-Low Sugar. During the year, the Company has expanded production and distribution of its newly Launched sugar brands.

### International Trading:

The Company actively participated in the export campaign in the year under the Government MIEQ & MAEQ scheme. The Company has continued export trade with markets like Madagascar, Sri Lanka, Hong Kong, Nepal, Canada, middle east nations like – Qatar and Kuwait. During the year, the Company has exported 3619 MT of white sugar and 5300 MT of raw sugar under MIEQ Scheme. The Company has also exported 9005 MT of white sugar and 41156 MT of raw sugar under MAEQ Scheme.

The Company has also exported 4325 Cases of Indian Made Foreign Liquor from its distillery units.

### HUMAN RESOURCES

The Company believes in cordial employer-employees relationship. #### OPERATIONS OF SUBSIDIARY/ASSOCIATE COMPANIES

**Simbhaoli Power Private Limited (SPPL):** SPPL is a 51% subsidiary, with a joint venture with Sindicatum Captive Energy Singapore Pte Limited. SPPL is generating the power using the sugar mill bagasse and third-party biomass at the Simbhaoli and Chilwaria Sugar complexes of the Company and selling the surplus power to State utilities under the long-term power purchase agreements. During the year, SPPL has generated 2.27 lacs MWh of power (Previous year 3.43 lacs MWh) and exported 1.36 lacs MWh (Previous year 2.38 lacs MWh).

Recently, Uttar Pradesh Electricity Regulatory Commission (UPERC) has notified the updated UPERC (Captive and Renewable Energy Generating Plants) Regulations, 2019 to supersede the earlier Regulations of 2014. Under the new regulations, the tariff of bagasse-based power generation and supply to UPPCL has been reduced by nearly ₹2 per Kwh (unit) which has affected the financials of SPPL substantially.

Financial Statements of SPPL have not yet been considered and approved by their Management. Therefore, the results of SPPL for the financial year 2019-20 ended on March 31, 2020 are not

available. For non-consolidation of accounts of SPPL detailed notes are forming part of Financial Statements.

**Uniworld Sugars Private Limited (USPL):** UniWorld Sugars Private Limited (USPL), a 50:50 joint venture company of Simbhaoli Sugars Limited, discontinued its operations in June 2017 due to non-availability of the raw sugar. During the financial year 2018-19, Corporate Insolvency Resolution Process (CIRP) was initiated against USPL by the Hon'ble National Company Law Tribunal, Allahabad Bench (NCLT) vide its order dated May 29, 2018, on an application of one of the vendors of the USPL. The 270 days of the CIRP period are completed on February 23, 2019, and in the absence of any resolution plan, the liquidation application was filed by the Resolution Professional with the Hon'ble NCLT on February 25, 2019. The Hon'ble NCLT has granted additional time to find suitable Resolution Plan for the Company, on which the Resolution Professional is working with the lenders of the USPL.

**Integrated Casetech Consultants Private Limited (ICCP):** Integrated Casetech Consultants Private Limited (ICCP), is an 85% subsidiary company and the technology vertical of SSL. It has been providing the operations and maintenance services to various sugar companies in India and abroad.

Due to lack of working capital and Covid-19 the Company is facing problems regarding the completion of the projects undertaken by it. During the year, the Company has achieved total revenue of ₹2401.07 Lacs (previous Year ₹1,633.09 lacs) reflecting a substantial increase in revenue in the current year. Company has earned a profit of ₹28.68 Lacs in comparison to profit of ₹18.87 lacs in previous year.

**Simbhaoli Global Commodities DMCC:** Simbhaoli Global Commodities DMCC, a wholly owned subsidiary company of Simbhaoli Sugars Limited was incorporated for trading in sugar, molasses, ethyl alcohol, fuel alcohol and other agro based commodities in the overseas market. The operations of the Company depend upon various national and international factors. Sugar is the main part of the business, upon which other businesses can derive the resultant benefits based on excess/shortage of sugar in international market. The government regulations in India for export/import of these commodities adversely affected the running of its business through Dubai. Thus, due to heavily regulated imports and exports by the Government and the recessionary conditions in the global market, the Company has not been able to do its business and therefore not able to operate in the coming years as well. The Company has made an application for de-registration and termination of the license with the Dubai Multi Commodities Centre Authority. The approval is awaited.

**Simbhaoli Specialty Sugars Private Limited (SSSPL):** Simbhaoli Specialty Sugars Private Limited is the wholly owned subsidiary of Simbhaoli Sugars Limited. No major business activities have been carried out by this Company during the year. Company has earned income from other source of ₹ 6.48 Lacs during Financial year 2019-20.

### Debt Servicing and Public Deposits

During the year, pending completion of the debt resolution, the Company has not been able to meet its obligations towards the lenders for repayment of both principal and interest. The Company has approached its lenders to implement debt resolution

plan of its outstanding debts in accordance with its available future cash flows, sustainability of the business and nature of the business of industry. There has been delays in submission of the plan and its consideration on account of continuous changes in regulatory frameworks, particularly, withdrawal of the arrangement of corporate debt restructuring and joint lenders forum. Subsequent to the intervention by the Hon'ble Supreme Court on such matter, the revised plans have been submitted to all the lenders for suitable resolution, which is under consideration by them. The specific requests have been made to take a collective approach with regard to possible resolution instead of taking multiple recovery/coercive measures. The proposal includes waiver of un-paid interest on overdue loan accounts till implementation of the proposed restructuring. The Company has approached its lenders to implement debt resolution plan of its outstanding debts and accordingly submitted a One Time Settlement Proposal (OTS) to its commercial lenders wherein resolution of outstanding debts of commercial banks are proposed to be settled through payment of One Time Agreed amount. In addition, The Company has also proposed certain percentage of shares in the equity share capital in direct proportion to lenders' outstanding principal amount. OTS proposal submitted by the Company is under consideration by the lenders.

With delays in repayment of the loans, and the cane price arrears, the Company's credit rating has continued to remain below investment grade.

The loans availed by the Company have been classified as Non-Performing Assets (NPA) by all the lenders and interest thereon is not being charged by them as per applicable practices. The Company is hopeful that the resolution exercise including waiver of un-paid interest on certain loan accounts shall be completed in due course of time, and accordingly, interest expenses for the year ended March 31, 2019 amounting to ₹ 12,336.46 lacs (previous year ₹ 11,971.59 lacs), aggregating to Rs 24,308 lacs has not been recognized in the financial statements.

Certain lenders to the Company have resorted to initiate recovery proceedings at Debt Recovery Tribunals, for which replies are being submitted based upon the legal advices. The Company, under discussions with its lenders, has identified and taking all measures to satisfy the lenders and to work out a common resolution plan to their satisfaction.

During the year, one of the lenders to the Company has approached Hon'ble National Company Law Tribunal (NCLT), Allahabad for initiating of Corporate Insolvency Resolution Process under Section 7 of the Insolvency and Bankruptcy Code, 2016. Considering the nature of industry and ongoing discussions with the lenders, the Company is hopeful that debt resolution shall be worked out with all the lenders leading to a consented settlement.

The Company has not accepted any public deposits and no deposits are unpaid for any previous year.

Material Changes and Commitments affecting the Financial position of the Company, which have Occurred Between the end of the Financial Year and the Date of Report

During the year, the Company has faced legal actions on account of defaults in repayments of loans and delay in approval of debt resolution. The detail has been reported elsewhere in this report.

I have also examined compliance with the applicable clauses/Regulations of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India and notified by Ministry of Corporate Affairs.
- (ii) Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 to the extent of Regulation 24, Since Company is a material subsidiary of a Listed Company.

During the period under review, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that,

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board/Committee Meetings. Agenda and detailed notes on agenda were sent in advance (and at a shorter notice for which necessary approvals obtained) and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committee of the Board, as the case may be.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period, no specific events / actions took place having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc.

\*inclusive of the workers at the manufacturing units

**Ratio of the Remuneration of each Director/KMP to the median remuneration of all the employees of the Company for the financial year.**

As the sugar industry is running into losses, there has been no substantial increase in the remuneration of the Directors/KMPs for the financial year 2019-20. Mr. Gurmit Singh Mann and Mr. Guralp Singh are the non-executive directors of the Company and were not paid any remuneration or sitting fees during this year. The details of the remuneration paid to other directors and Key Managerial Personnel is given below:

Name of Director/KMP	Remuneration (₹ Lacs)	Ratio of remuneration to median remuneration of all employees	% increase in remuneration in the Financial Year 2019-20
Ms. Gursimran Kaur Mann, Managing Director	119.82	43.574	Neg.
Mr. S N Misra, Chief Operating Officer	75.12	27.32	9.00
Mr. Dayal Chand Popli, Chief Financial Officer	64.54	23.47	9.11
Mr. Kamal Samtani, Company Secretary	26.54	9.65	7.280

**Notes:**

- The ratio of remuneration median remuneration is based on remuneration paid during the period April 1, 2019 to March 31, 2020.
- Remuneration is inclusive of arrears of previous year, if any.
- The independent directors are being paid only the sitting fees and the relevant disclosures are made in the Corporate Governance report forming part of this Annual Report.

**The explanation on the relationship between average increase in remuneration and company performance;**

Revenue from operations for the year 2019-20 is ₹1208.32 lacs. Although, there is no direct relationship between remuneration

**NOTES:**

- For electricity generated through diesel generator, cost of the diesel has been considered.
- Since various types of fuel used are alternative to each other, no standard can be fixed for their consumption.
- Due to change in mix of fuel used, no comparison can be made with the earlier years.
- Cost of electricity generated through steam turbine has been arrived at after giving credit for the exhaust steam subsequently used in the manufacturing process.
- Costs have been given based on the records maintained as per Companies (Cost Records and Audit) Amendment Rules 2017, applicable to Sugar and Alcohol industry.

and company performance as the remuneration is paid at par with the industrial norms for retention of employees with the Company.

**Comparison of the remuneration of the Key Managerial Personnel against the performance of the company;**

There is no direct relationship between remuneration of KMPs and company-performance as the remuneration is paid within industry norms for retention of KMPs with the Company.

**Variations in the market capitalisation of the company, price earnings ratio as at the closing date of the current financial year and previous financial year and percentage increase over decrease in the market quotations of the shares of the company in comparison to the rate at which the company came out with the last public offer in case of listed companies, and in case of unlisted companies**

Market capitalization of the Company as on March 31, 2020 was as follows:

Stock Exchange	2020	2019
NSE	17.54	37.56
BSE	16.09	37.24

**Average percentile increases already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration;**

There was no substantial increase on the remuneration of the employees during the year.

**Comparison of the each remuneration of the Key Managerial Personnel against the performance of the company;**

As aforementioned, the Company has been facing financial difficulties on account of mismatch in the sugar viz sugarcane pricing, as per the norms fixed by the State Government. With erosion of substantial part of the net-worth and increased dependency on the Government policy change, the Company has been suffering from the losses. In addition, the Company has been paying for retention of KMPs within the permissible limits and as far as possible to run the affairs if the Company.

**The key parameters for any variable component of remuneration availed by the directors;**

As per terms of employment, commission on net profit is the only variable component of remuneration to Whole Time Directors. On account of the continued losses there was no commission paid to any of the Directors.

The ratio of the remuneration of the highest paid director to that of the employees who are not directors but receive remuneration in excess of the highest paid director during the year;

None of the employees has been paid remuneration in excess of the highest paid Director during the year.

1. We have examined the compliance of conditions of Corporate Governance by Simbhaoli Sugars Limited ("the Company"), for the year ended on March 31, 2020, as stipulated in regulation 17 to 27 and clauses (b) to (i) of regulation 46(2) and paragraphs C, D and E of Schedule V of the SEBI Listing Regulations for the period April 01, 2019 to March 31, 2020.
2. The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to a review of the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
3. We have examined the relevant records of the Company in accordance with the Generally Accepted Auditing Standards in India, to the extent relevant, and as per the Guidance Note on Certification of Corporate Governance issued by the Institute of Chartered Accountants of India. The procedures

selected depend on the auditor's judgement, including the assessment of the risks associated in compliance of the Corporate Governance Report with the applicable criteria.

4. In our opinion and to the best of our information and according to our examination of the relevant records and the explanations given to us and the representations made by the Directors and the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in regulation 17 to 27 and clauses (b) to (i) of regulation 46(2) and paragraphs C, D and E of Schedule V of the SEBI Listing Regulations for the respective periods of applicability as specified under paragraph 1 above, during the year ended March 31, 2020, except in respect of Regulation 17(1)(b) & 25(6), wherein there was a delay in filling vacancy caused by resignation of Independent Directors.
5. We state that such compliance is neither an assurance as to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the Company.

## CEO/CFO CERTIFICATION

The Board of Directors  
Simbhaoli Sugars Limited  
Simbhaoli, District Hapur,  
Uttar Pradesh - 245 207

**Re: Certification by CEO/CFO for the Financial Year ended on March 31, 2020**

We, S N Misra, Chief Operating Officer and Dayal Chand Popli, Chief Financial Officer of Simbhaoli Sugars Limited to the best of our knowledge and belief, certify that:

- (a) We have reviewed the financial statements comprising of the balance sheets as on March 31, 2020, profit and loss account, the cash flow statement and the boards' report for the year ended March 31, 2020 and based upon our knowledge and information confirm that:
- (i) these statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
- (ii) these statements together present a true and fair view of the Company's affairs and are in compliance with existing accounting standards, applicable laws and regulations.
- (b) We accept responsibility for establishing and maintaining internal controls for financial reporting for the Company and we have:
- (i) evaluated the effectiveness of the internal control systems of the Company,
- (ii) disclosed to the auditors and the audit committee of the Board, deficiencies in the design or operation of internal controls, if any, of which we are aware, and
- (iii) taken necessary steps or proposed to take to rectify these deficiencies.
- (c) We have indicated to auditors and the audit committee of the Board that there have been:

- (i) no significant changes in internal control over the financial reporting during the year and the quality of internal control is improved with the implementation of SAP;
- (ii) no significant changes in accounting policies during the year;
- (d) no instances of significant fraud of which we have become aware and the involvement therein, if any, of the management or an employee having a significant role in the Company's internal control system.
- (e) There are, to the best of our knowledge and belief, no transactions entered into by the Company during the year, which are fraudulent, illegal or violative of the Company's code of conduct.
- (f) In accordance with Regulation 17(5) of the Listing Regulations, all the directors and the Senior Management Personnel of the Company have affirmed compliance to their respective Codes of Conducts, as applicable to them for Financial Year ended March 31, 2020

We state that, over the last few years, Uttar Pradesh based sugar companies have been facing financial difficulties on account of higher sugar cane prices, lower realization of sugar and high finance cost in last 3-4 years. The state administration took control over the sugar stocks and initiated multiple coercive actions, and there have been some delays in discharge of the statutory liabilities. However, the Company has been implementing a number of measures for its business viability and we are confident to come out of the difficult stage over a period of time.

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF SIMBHAOLI SUGARS LIMITED

## Report on the audit of the Standalone financial statements

### Qualified Opinion

1. We have audited the accompanying standalone Ind AS financial statements of Simbhaoli Sugars Limited ("the Company"), which comprise the Balance Sheet as at March 31st, 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the basis for qualified opinion paragraph below, the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs (financial position) of the Company as at March 31st, 2020, and total comprehensive loss (comprising of loss and other comprehensive loss), its cash flows and the changes in equity for the year then ended.

### Basis for Qualified opinion

- i) We draw attention to Note No. 4 of the statement regarding non provisions for impairment in the carrying value of property, plant and equipment. We are not made available of appropriate impairment assessment carried out by the management and accordingly, we are unable to comment on the same including compliance with the Ind AS-36 ('Impairment of Assets') and any consequential adjustments that may arise in this regard in these financial results.
- ii) We draw attention to Note No. 10 of the Statements regarding non-provision of interest expense amounting Rs.13,146.17 Lakhs (Previous year Rs. 12,336.46 Lakhs) on certain borrowings for the year ended March 2020 for the reasons stated in the said note. The total amount of interest expense not provided for in the accounts aggregates to Rs. 37,454.23 Lakhs till 31st March 2020(Previous year Rs.24,307.59 Lakhs). Had the aforesaid interest expense been provided for, the Finance Cost, Net Loss after tax and Total Comprehensive Loss for the year ended March 31st, 2020 would have been increased by Rs. 13,146.17 Lakhs (P.Y. Rs. 12,336.46 Lakhs), the Current Financial Liability as at March, 2020 would have been increased and shareholder's funds as at March 31st, 2020 would have been decreased by Rs. 37,454.23 Lakhs (P.Y. 24,307.59 Lakhs)
- iii) We draw attention to Note No. 24 of the statement regarding non provision of disputed value of bagasse amounting to Rs. 253.13 Lakhs, sold to Simbhaoli Power Private Limited, a subsidiary company, for the reasons stated in the said note. Consequently, the revenue for the year has been overstated; Net loss and total comprehensive Income for the year has been understated; Receivables and total equity as at March 31st, 2020 has been overstated by the aforesaid amount.

- iv) We draw attention to Note No.6, of the Statement regarding non- provision of interest liability in respect of delayed payment of sugarcane price for the reasons stated in the said note. The amount of interest not provided for in the books has not been ascertained. Our report is modified in respect of above matters

### Material Uncertainty related to Going Concern:

As stated in Note No. 4, the financial statement of the company has been prepared on going concern basis. Events or conditions as set forth in Note No. 4 indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as going concern. The ability of the Company to continue as going concern depends on the decision of National Company Law Tribunal under the Insolvency and Bankruptcy Code 2016, the company's ability to get its borrowings restructured as stated in the said note and turnaround of the sugar and distilleries operation on sustainable basis.

Our report is not modified in respect of the above matter.

### Others Matter

We draw your attention to Note No. 4 to the financial statement, which describes the Management's assessment of the impact of COVID -19 pandemic and the resultant lock-down on the significant uncertainties involved in preparing the financial statements. Based on the information available on this date, Management believes that no further adjustments are required to the financial statement. However, in view of very uncertain economic environment, a definitive assessment of the impact is highly dependent upon circumstances as they evolve in future and actual results may differ from those estimated as at the date of approval of these financial statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matter:

S. No.	Key Audit Matters	Auditor's Response
1	<p><b>Impact of government policies/ notifications on recognition of subsidy accruals/claims and their recoverability</b></p> <p>During the year, the Company has recognized accruals/subsidy claims amounting to Rs. 5,915.84 Lakhs (P.Y. 4,201.83 Lakhs). As at March 31st 2020, the Company has receivables of Rs. 7,292.25 Lakhs relating to such claims which is significant to the financial statements.</p> <p>We consider this as key audit matters because recognition of accruals/claims and assessment of recoverability of the claims is subject to significant judgment of the management. The area of judgment includes certainty around the</p>	<p><b>Principal Audit Procedures</b></p> <p>We understood and tested the design and operating effectiveness of controls as established by management in recognition and assessment of the recoverability of the claims.</p> <p>We evaluated the management's assessment regarding reasonable certainty for complying with the relevant conditions as specified in the notifications/policies and collections.</p> <p>We considered the relevant notifications/policies issued by various authorities to</p>

#### Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of management and those charged with governance for the financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the companies act, 2013("the Act")with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs(financial position) , profit or loss (financial performance including other comprehensive income) changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards(Ind AS) specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of

adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in manner that achieves fair presentation.

- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on other legal and regulatory requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable ;
2. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act and not in excess of the limits laid down therein.
3. As required by Section 143(3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b) Except for the effects of the matter described in the Basis for Qualified Opinion paragraph above, in our opinion proper books of account as required by law have been kept by the company so far as it appears from our examination of those books.
  - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive loss), the Statement of Changes in Equity and Cash Flow Statement dealt with by this Report are in agreement with the books of account.
  - (d) Except for the effects of the matter described in the Basis for Qualified Opinion paragraph above, in our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act.
  - (e) The qualifications relating to the maintenance of accounts and other matters connected therewith are as stated in the Basis for Qualified Opinion paragraph above.
  - (f) On the basis of the written representations received from the directors as on March 31st, 2020 taken on

record by the Board of Directors, none of the directors is disqualified as on March 31st, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

- (g) With respect to the adequacy of the internal financial controls with reference to financial statement of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements. Refer Note no. 6 to the financial statement.

- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

### **Annexure - 'A' to the Independent Auditors' Report**

**(The "Annexure A" referred to in our Independent Auditor's Report of even date to the members of the Company on the standalone financial statements for the year ended 31st March, 2020.)**

- i. In respect of company's fixed assets:
- a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant & equipment.
- b) The Company has a phased program of physical verification of its property, plant & equipment which, in our opinion, is reasonable having regard to the size of the company and the nature of its assets. Pursuant to the program, certain property, plant & equipment were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- c) The title deeds of all immovable properties, as disclosed in the financial statements except in case of an immovable properties situated at Brijnathpur having carrying amount of Rs. 8.62 Lakhs, are held in the name of the company
- ii. The inventories (other than lying with third parties) have been physically verified by the management at reasonable interval during the year. In our opinion and according to the information and explanations given to us, the frequency of such verification is reasonable. As explained to us, no material discrepancies were noticed on physical verification of inventories as compared to book records.
- iii. According to the information and explanations given to us and based on our examinations of the records, in our opinion, the Company has not granted any secured or unsecured loan to the companies, firms, limited liability partnership and other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly paragraph 3(iii), of the said order is not applicable to the company.
- iv. According to the information and explanations given to us and based on our examinations of the records, in our opinion, the company has complied with the provisions of the Section 185 and 186 of the Companies Act, 2013 in respect to loans and

investments made, guarantee and securities provided by it.

- v. According to the information and explanations given to us, in our opinion, the Company has not accepted any deposit in contravention of the directives issued by the Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Act and rules framed there under. As informed to us, no order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other Tribunal in this connection.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost records and Audit) Rules, 2014 under section 148 of the Companies Act and are of the opinion that, prima facie, the prescribed cost record have been made and maintained. We have however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. In respect of statutory dues:
- a) According to the information and explanations given to us and based on our examinations of the records, in our opinion, the Company has generally been regular in depositing undisputed statutory dues in respect of provident fund, investor education and protection fund, employees' state insurance, income tax, sales tax, services tax, customs duty, excise duty, value added tax, cess, goods and services tax and other material statutory dues, as applicable, with the appropriate authorities though there has been slight delay in few cases. There are no undisputed statutory dues as referred to above as at 31st March, 2020 outstanding for a period of more than six months from the date they become payable except for the following:
- | (Amount in Lakhs.)  |        |
|---------------------|--------|

## **Annexure - 'B' to the Independent Auditor's Report**

(The Annexure – 'B' referred to in our Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended March 31, 2020)

### **Report on the Internal Financial Control under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to financial statements of Simbhaoli Sugars Limited ("the Company") as of 31st March, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention

and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statement, based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to financial statement and their operating effectiveness. Our audit of internal financial control with reference to financial

statement included obtaining an understanding of internal financial control with reference to financial statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statement.

#### **Meaning of Internal Financial Controls with reference to financial statement**

A Company's internal financial control with reference to financial statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statement includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls with reference to financial statement**

Because of the inherent limitations of internal financial controls with reference to financial statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statement to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion except for the matters described in the Basis for Qualified Opinion, Material Uncertainty on Going Concern paragraph, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statement and such internal financial controls with reference to financial statement were operating effectively as at 31st March, 2020, based on the internal controls with reference to financial statement criteria established by the Company considering the components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

These financial statements of the Company for the year ended 31st March, 2020 are approved and authorized for issue by the Company's Board of Directors on **July 30, 2020**.

#### 2.1 Basis of preparation and presentation

##### i) Statement of Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 (the Act) read with the Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and relevant amendment rules thereafter and accounting principles generally accepted in India.

These financial statements have been prepared on going concern basis using the significant accounting policies and measurement bases summarized below. Accounting Policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a

change in accounting policy hitherto in use. In those cases the new accounting policy is adopted in accordance with the transitional provisions stipulated in that Ind AS and in absence of such specific transitional provision, the same is adopted retrospectively for all the periods presented in these financial statements.

##### ii) Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

##### iii) Basis of preparation

The financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities (refer accounting policy regarding financial instruments) and assets for defined benefit plans that are measured at fair value and less cost of sale wherever required. The methods used to measure fair values are discussed further in notes to financial statements.

##### iv) Functional and presentation currency

These financial statements are presented in Indian rupees (INR), which is company's functional currency. All amounts have been rounded off to nearest lacs unless otherwise indicated.

##### v) Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013 based on the nature of services rendered and time between the acquisition of asset for providing services and their realization in cash and cash equivalents.

#### 2.2 Current versus non-current classification

The company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it satisfies any of the following criteria:

- Expected to be realized or intended to be sold or consumed within normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realized within twelve months after the reporting date, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle liability for at least twelve months after the reporting date.

A liability is treated as current when it satisfies any of the following criteria:

- Expected to be settled in the company's normal operating cycle;
- Held primarily for the purpose of trading;
- Due to be settled within twelve months after the reporting date; or

- The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.
- Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments does not affect its classification.  
Current liabilities include the current portion of non-current financial liabilities. All other liabilities are classified as non-current.

The Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

### 2.3 Use of Estimates and management judgements

The preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) requires management of the company to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets, liabilities and related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date.

The estimates and management's judgement are based on previous experience and other factors considered reasonable and prudent in the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The areas involving critical judgements are as follows:

#### i) **Material uncertainty about going concern:**

In preparing financial statements, management has made an assessment of Company's ability to continue as a going concern. Financial statements are prepared on a going concern basis. The management is aware, in making its assessments, of material uncertainties related to events or conditions that may cast significant doubt upon the company's ability to continue as a going concern. Further details on going concern are disclosed in Note No. 4.

#### ii) **Fair value measurements of financial instruments:**

When the fair value of financial assets and liabilities recorded in the Balance sheet cannot be measured based on the quoted market price in the active markets, their fair value is measured using valuation technique. The input to these model is taken from the observable market wherever possible, but if this is not feasible, a review of judgement is required to establish fair values. Changes in assumptions related to these inputs could affect the fair value of financial instrument.

#### iii) **Employee benefit plans:**

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

#### iv) **Recoverability of trade receivables:**

The Company has a stringent policy of ascertaining impairments, if any, as result of detailed scrutiny of major cases and through determining expected credit losses. Despite best estimates and periodic credit appraisals of customers, the Company's receivables are exposed to delinquency risks due to material adverse changes in business, financial or economic conditions that are expected to cause a significant change to the party's ability to meet its obligations. All such parameters relating to impairment or potential impairment are reviewed at each reporting date

#### v) **Provision and contingencies:**

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgement by management regarding the probability of exposure to potential loss. The timing of recognition and quantification of the liability requires the application of judgement to existing facts and circumstances, which can be subject to change.

#### vi) **Income Tax:**

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

Deferred tax assets are recognised for unused tax losses and unused tax credit to the extent that it is probable that taxable profit would be available against which the losses could be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

#### vii) **Useful life and residual value of plant, property equipment and intangible assets:**

The useful life and residual value of plant, property equipment and intangible assets are determined based on technical evaluation made by the management of the expected usage of the asset, the physical wear and tear and technical or commercial obsolescence of the asset. Due to the judgements involved in such estimations, the useful life and residual value are sensitive to the actual usage in future period.

## 2.4 Significant Accounting Policies

### A. **Property, Plant & Equipment & Capital work in Progress**

#### a) **Recognition and measurement**

Property, plant and equipment are tangible items that are held for use in the production or supply for goods and services, rental to others or for administrative purposes and are expected to be used for more than one period.

The cost of an item of property, plant and equipment is being recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Freehold lands are stated at cost. All other items of property, plant and equipment are stated at cost net of recoverable taxes less accumulated depreciation, and impairment loss, if any.

The cost of an asset includes the purchase cost of assets, including import duties and non-refundable taxes, and any directly attributable costs of bringing an asset to the location and condition of its intended use. Interest on borrowings used to finance the construction of qualifying assets are capitalized as part of the cost of the asset until such time that the asset is ready for its intended use.

Items of spare parts, stand-by equipments and servicing equipments which meet the definition of property, plant and equipment are capitalized. Other spare parts are carried as inventory and recognized in the statement of profit and loss on consumption. When parts of an item of Property, plant & equipments have different useful lives, they are accounted for as separate component.

When a significant part of property, plant and equipment are required to be replaced at intervals, the company derecognizes the replaced part and recognise the new part with its own associated life and it is depreciated accordingly. Likewise when a major repair is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement, if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

The present value of the expected cost of decommissioning of an asset after its use, if any, is included in the cost of the respective asset if the recognition criteria of provisions are met.

The cost and related accumulated depreciation are eliminated from the financial statement upon sale or retirement of the asset and resultant gains or losses are recognized in the Statement of Profit and Loss.

Assets identified and technically evaluated as obsolete are retired from active use and held for disposal are stated at lower of its carrying amount and fair value less cost to sell.

Capital work-in-progress, representing expenditure incurred in respect of assets under development and not ready for their intended use, are carried at cost. Cost includes related acquisition expenses, construction cost, related borrowing cost and other direct expenditure.

#### b) Subsequent Expenditure.

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

### B. Intangible Assets

Intangible assets are recognized when it is probable that the future benefits that are attributable to the assets will flow to the Company and the cost of the assets can be measured reliably.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from its use. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss when the asset is derecognized.

### C. Depreciation and Amortization

The classification of plant and machinery into continuous and non-continuous process is done as per their use and depreciation thereon is provided accordingly. Depreciation commences when the assets are available for their intended use. The depreciation is provided by applying the following method at the useful lives specified in schedule II to the Companies Act, 2013:

All Depreciable PPE except Vehicles	-	Straight line method
Vehicles	-	Written down value method

PPE costing up to Rs. 5,000 are fully depreciated in the year of purchase. Freehold land is not depreciated.

Intangible assets are amortized on a straight-line basis over the estimated useful economic life of the assets. The Company uses a rebuttable presumption that the useful life of intangible assets is ten years from the date when the assets is available for use.

Right of use assets are depreciated on straight line method (SLM) over the period of life of right of use assets or lease terms whichever expire earlier except in case of right of use assets, the ownership of which is proposed to be transferred to the company or the cost of such assets reflects that the company will exercise a purchase option, the same is depreciated on straight line method (SLM) over the useful life of the assets.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each financial year and are given effect to wherever appropriate.

### D. Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

**(a) The Company as a lessee**

The Company's lease asset class primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether:

- i) The contract involves the use of an identified asset.
- ii) The Company has substantialized all of the economic benefits from use of the asset through the period of the lease and;
- iii) The Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Right of use assets is evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country

of domicile of these leases. Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

**(b) As a lessor**

Leases for which the company is a lessor is classified as finance lease or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as finance lease. All other leases are classified as operating lease. When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. The sub-lease is classified as finance lease or operating lease with reference to right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of such lease

**Transition**

Effective April 1, 2019, the company adopted Ind AS 116- "Leases" and applied the standard to all its existing lease contracts existing as on April 1, 2019 using modified retrospective method and has taken cumulative adjustment to the retained earnings, on the date of initial application. The company has also applied practical expedient provided in the standard which permits the Company not to reassess the existing contracts and to apply the new standard only on those contracts which were classified as operating leases under Ind AS 17, excluding leases of low value assets and leases expiring within twelve months from the date of initial application. The Company recorded the lease liability at the present value of the remaining lease payments discounted at incremental borrowing rate on the date of initial application and right of use asset has been measured at an amount equal to lease liability adjusted for previously recognized prepaid or accrued lease payments. Details of impact of transition are given at note no. 5.

**E. Government Grant**

Grants from the government are recognized at their fair value where there is reasonable assurance that the grant will be received, and the Company will comply with all attached conditions.

Governments Grants relating to the purchase, construction or otherwise acquired non-current assets, are recognized as deferred income in the balance sheet and are credited to profit or loss on a systematic and rational basis over the expected lives of the related assets and presented in other income.

Government Grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the company with no future related costs are recognized in statement of profit or

loss in the period in which they become receivable.

#### **F. Borrowing**

Long term borrowing are initially recognised at net of material transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the statement of Profit and Loss over the period of the borrowing using the effective interest method.

#### **G. Borrowing Cost**

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs. Other borrowing costs are expensed in the period in which they are incurred.

#### **H. Employee benefit plans:**

Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard (Ind AS)-19 - 'Employee Benefits'.

##### **i) Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expense off as the related service is provided. A liability is recognized for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

##### **ii) Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in statement of profit or loss in the periods during which the related services are rendered by employees. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

Retirement benefit in the form of superannuation fund is a defined contribution scheme. The Company has established a Superannuation Fund Trust to which contributions are made quarterly. The Company recognizes contribution payable to the superannuation fund scheme as expenditure, when an employee renders the related service. The Company has no other obligations beyond its quarterly contributions.

##### **iii) Defined benefit plans**

A defined benefit plan is a post-employment benefit plan

other than a defined contribution plan. The company net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized as other comprehensive income. The company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognized immediately in statement of profit or loss. The company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

##### **iv) Other long-term employee benefits**

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Re-measurements gain or losses are recognized in statement of profit or loss in the period in which they arise.

##### **v) Voluntary Retirement Scheme**

Expenditure on voluntary retirement scheme is charged to the Statement of Profit and Loss in the year in which it is incurred.

#### **I. Inventories**

Inventories, except By-products are valued at the lower of cost and net realizable value. By-products are valued at estimated net realizable value. The bases of determining cost for different categories of inventory are as follows:

Stores and spare parts	-	Monthly weighted average.
Raw materials	-	First in first out (FIFO)
Process stocks/finished goods	-	Material cost plus appropriate share of labour and manufacturing overheads
Stock in trade	-	First in first out (FIFO)

## J. Financial Instruments

### a) Financial Asset

#### i) Classification

The company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and contractual cash flow characteristics of the financial asset.

#### ii) Initial Recognition and Measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

The financial assets include equity and debt securities, trade and other receivables, loans and advances, cash and bank balances and derivative financial instruments.

#### iii) Subsequent Measurement

For the purpose of subsequent measurement, financial assets are classified in the following categories:

- At amortized cost,
- At fair value through other comprehensive income (FVTOCI), and
- At fair value through profit or loss (FVTPL).

#### iv) Debt instrument at amortized cost

A "Debt instrument" is measured at the amortized cost if both the following condition are met:

- The assets are held within a business model whose objective is to hold assets for collecting contractual cash flow (business model test), and
- Contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principle and interest on the principle amount outstanding (contractual cash flow characteristics).

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount, premium, fee or costs that are an integral part of an EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss.

#### v) Debt instrument at fair value through profit or loss

Debt instruments included within the fair value through profit or loss (FVTPL) category are measured at fair value with all changes recognized in the statement of profit and loss.

#### vi) Debt instruments at fair value through other comprehensive income

A financial asset should be measured at FVTOCI if both the following conditions are met:

- The asset is held within a business model in which asset are managed both in order to collect contractual cash flows and for sale, and
- Contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principle and interest on the principle amount outstanding.

After initial measurement (at fair value minus transaction cost), such financial assets are measured at fair value with changes in fair value recognized in Other comprehensive income except for:

- Interest calculated using EIR
- Foreign exchange gain and losses, and
- Impairment losses and gains

#### vii) Equity investments

All equity investments in the scope of Ind AS 109 are measured at fair value except in case of investment in subsidiaries, Joint ventures and associates which are carried at cost/deemed cost and reviewed for impairment at each balance sheet date. Deemed cost is the carrying amount under the previous GAAP as at the transition date i.e. April 01, 2016. Equity instruments included within the FVTPL category, if any, are measured at fair value with all changes recognized in statement of profit or loss. The Company may make an irrevocable election to present in OCI subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price, if loss, is recognized through retained earnings and after initial recognition subsequent changes in fair value of equity instruments is recognised as gain or loss to the extent it arises from change in input to valuation technique. If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

#### viii) De-recognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognized when:

- The right to receive cash flows from the assets have expired or
- The company has transferred substantially all the risks and rewards of the assets, or
- The company has neither transferred nor retained substantially all the risks and rewards of the assets, but has transferred control of the assets.

## b. Financial liabilities

### i) Classification

Debt and equity instruments issued by the company are classified as either financial liabilities or as equity in accordance with the substance of the contractual agreements and the definitions of financial liability and equity instrument.

**ii) Initial recognition and measurement**

The company recognizes financial liability when it becomes a party to the contractual provision of the instrument. All financial liabilities are recognized initially at fair value, for financial liability not subsequently measured at FVTPL, at transaction costs that are directly attributable to the issue of financial liability.

**iii) Subsequent Measurement**

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

**iv) Financial liability at amortized costs**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Gain and losses are recognized in statement of profit and loss when the liabilities are derecognized.

Amortization cost is calculated by taking into account any discount or premium on acquisition and transaction cost. These amortization is included as finance cost in the statement of profit and loss.

This category generally applies to loans & borrowings.

**v) Financial liability at FVTPL**

Financial liabilities are classified at FVTPL when the financial liability is either contingent consideration recognized by the company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designed as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gain or loss arises on re-measurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability.

**vi) Equity Instrument**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the company are recognized at the proceeds received, net of direct issue cost.

Repurchase of the company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue, or cancellation of the company's own equity instruments.

**vii) De-recognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amount recognized in the Statement of Profit and Loss.

**c) Offsetting of financial instrument**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized

amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

**K. Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, cheques on hand, deposits held at call with banks, balance with banks on current account and short term, highly liquid investments with an original maturity of three months or less that are readily convertible to cash and which are subject to an insignificant risk of changes in value.

For the purpose of statement of cash flow, cash and cash equivalents consist of cash and short term deposits, net of outstanding bank overdraft as they being considered as integral part of the company's cash management.

**L. Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

**Sale of Goods**

The Company derives revenue primarily from, sale of sugar and other by-products produced from processing of sugar cane, and sale of chemical, liquor etc. Revenue from sale of goods is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration, the company expect to receive in exchange of those products or services. Revenue is inclusive of excise duty and excluding estimated discount and pricing incentives, rebates, other similar allowances to the customers and also excluding value added taxes, goods and other taxes and amounts collected on behalf of third parties or government, if any.

**Interest Income**

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

**Dividend Income**

Dividend income is recognized when the Company's right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably i.e. in case of interim dividend, on the date of declaration by the Board of Directors; whereas in case of final dividend, on the date of approval by the shareholders.

**Export Incentives**

Export incentives are accounted for in the year of exports based on eligibility and when there is no significant uncertainty in receiving the same.

**Insurance Claims**

Insurance claim are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it

is reasonable to expect ultimate collection.

#### M. Expenses

All expenses are accounted for on accrual basis.

#### N. Foreign currency translations

Standalone financial statements have been presented in Indian Rupees (INR), which is Company's functional and presentation currency.

##### a) Initial Recognition

Transactions in foreign currencies are initially recorded at the functional currency spot rate prevailing at the date the transaction first qualifies for recognition.

##### b) Transactions and balances

Monetary assets and liabilities related to foreign currency transactions outstanding at the balance sheet date are translated at the functional currency spot rate of exchange prevailing at the balance sheet date. Any income or expense arising on account of foreign exchange difference either on settlement or on translation is recognized in the Statement of Profit and Loss.

#### O. Taxes

##### a) Income tax

Income tax comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to a business combination or to an item recognized directly in equity or in other comprehensive income.

##### b) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on net basis or simultaneously.

##### c) Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

- Temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- Temporary differences related to investments in subsidiaries, associates and joint arrangements

to the extent that the company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. In case of a history of continuous losses, the company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized, or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

#### P. Impairment

##### i) Non-financial assets

Goodwill and Intangible assets that have an indefinite useful life are not subject to amortization but are tested annually for impairment.

Other intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The carrying amount of assets is reviewed at each balance sheet date, if there is any indication of impairment based on internal/external factor. An asset is impaired when the carrying amount of the assets exceeds the recoverable amount. If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of

profit or loss in the year in which an asset is identified as impaired.

An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

#### ii) Financial assets

The company applies 'simplified approach' measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instrument and are measured at amortized cost e.g. loans, debt securities, deposits, and bank balance.
- Trade receivables:

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on life time expected credit loss at each reporting date, right from its initial recognition.

#### Q. Earnings per share

Basic earnings per share are calculated by dividing the profit/loss for the year (before other comprehensive income), attributable to the equity shareholders, by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share are calculated by dividing the profit/(loss) for the year (before other comprehensive income), adjusting the after tax effect of interest and other financing costs associated with dilutive potential equity shares, attributable to the equity shareholders, by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares.

#### R. Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement. Provisions are not recognized for future operating losses

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote.

A contingent asset is not recognized but disclosed, when possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

#### S. Operating Segments

The Company's operating segments are established on the basis of those components of the Company that are evaluated regularly by the Board of Directors (the 'Chief Operating Decision Maker' as defined in Ind AS 108 - 'Operating Segments'), in deciding how to allocate resources and in assessing performance. These have been identified taking into account nature of products and services, the different risks and returns and the internal business reporting systems.

Revenue and Expenses have been identified to a segment on the basis of relationship to operating activities of the segment. Revenue and Expenses which relate to enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as "Unallocable".

Segment Assets and Segment Liabilities represent Assets and Liabilities in respective segments. Assets and Liabilities that cannot be allocated to a segment on reasonable basis have been disclosed as "Unallocable".

#### T. Cash Flow Statement

Cash flows are stated using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of incomes and expenses associated with investing or financing flows. The cash flows from operating, investing and financing activities of the Company are segregated.

4. Indian sugar industry has been facing difficulties on account of high sugar production in the country since 2016-17 resulting in surplus sugar. For the year ended March 31, 2020, and previous years, the Company has incurred losses due to high sugarcane costs fixed by the Government, and comparatively lower prices of finished goods which are also being regulated and controlled, and other external factors. The operations of the company though remained intact, however due to continuing losses, its net worth has been fully eroded resulting in failure in meeting its payment obligations to lenders and sugarcane farmers in terms of respective agreements and understanding.

Meanwhile, recognizing the industry requirements, the Government has implemented a number of measures to improve the financial health of the sugar industry, including support for liquidation of cane arrears, fixing minimum obligation for export to manage the sugar inventory, fixation of Minimum Support Price (MSP) of sugar, providing cash subsidies on production and export of sugar, and mandatory blending of ethanol with petrol at certain level with remunerative price of ethanol. In addition, pursuant to an order of Hon'ble High Court of Uttar Pradesh, pronounced in favour of sugar industry, the sugar industry as well as the Company is confident to receive much awaited amounts being accrued benefits due to it from state government under the erstwhile Sugar Promotion Policy 2004-09. All these measures are expected to reflect in revival of the sugar industry on sustainable basis.

Based on these positive steps, along with other internal measures, the management believes that operations at its manufacturing facilities will remain continued in the near foreseeable future on regular basis.

On account of delays in servicing of loans, the lenders to the Company have initiated recovery proceeding at various forums, including filing of application before National Company Law Tribunal under Section 7 of the Insolvency and Bankruptcy Code, 2016 by two of the lenders and approaching Debt Recovery Tribunal (DRT) for recovery of their dues. One of the lenders had declared the Company and Guarantors to the credit facility, as willful defaulters, which has been set aside by the Hon'ble Chandigarh High Court. Against a criminal complaint filed by one of the lenders with the investigating agencies, the enforcement directorate had passed an attachment order against certain assets of the Company to the extent of Rs. 109.80 crores, against which the Company has preferred an appeal with the appropriate authority.

The Company has submitted a comprehensive debt resolution proposal with all the commercial banks and realignment of dues with other lenders, commensurating with its future cash flows. Majority of commercial lenders have shown their inclination to accept the debt resolution proposal of the Company.

#### Impact of COVID 19 Pandemic

The spread of COVID 19 pandemic and nationwide lockdown has caused disruption of supply chain across businesses and industries in India. Since the company is engaged in the manufacturing of essential commodities, timely steps taken by the government have ensured regular operations of the sugar mills in U.P. However, COVID -19 crisis, has adversely impacted domestic demand of sugar and ethanol during complete lockdown period. Under the directives of Ministry of Home affairs and State Government, the Company has started manufacturing of hand sanitizers in its distillery divisions. The demand for the company's products is expected to recuperate with the gradual lifting of nationwide lockdown by the Government.

The Company has considered the potential impact of COVID 19 and related restrictions on the carrying amount of inventory, and financial and non-financial assets and based on the information available to it up to the date of approval of financial statements, written down the value of inventory to net realizable value, wherever required, and made provisions in financial and non-financial assets. However, the impact of COVID 19 as well as negative outlook of sugar sector on the carrying amount of its Property, Plant and Equipments and consequential impairment could not be ascertained and provided for due to non-availability of requisite information on account of lockdown restrictions.

It is not possible to reliably estimate the future financial effect of the COVID 19 situation on the Company. The impact assessment is a continuing process given the uncertainties associated with nature and duration of current situation. The eventual impact may differ from what has been assessed by the Management as at the date of approval of these financial statements. The Company will continue to closely monitor any material change in future economic conditions and take appropriate action as may be required.

Considering the steps initiated for achieving turnaround of sugar sector, ongoing discussions with lenders for resolution of their dues and continuing regular manufacturing operations in near foreseeable future, these financial statements are continued to be presented on going concern basis, which contemplates realisation of assets and settlement of liabilities, in the normal course of business.

#### 5. Disclosure in respect of Non-Cancellable Operating Lease:

The company had taken head office premises on long term lease in an earlier year. This Lease Contract have been classified as long term lease and accordingly accounted for as per Ind-As 116.

As stated in note no. 2.4D- "leases", effective from April 1, 2019, the company has adopted Ind-As 116 'Leases' and applied it to all lease contracts existing on April 1, 2019 using the modified

retrospective approach. Incremental borrowing rate of 12.50 % has been used for measurement of present value of remaining lease payments and right of use assets.

Following are the changes in the carrying value of right of use assets for the year ended March 31,2020:

## 6. Contingent liabilities and commitments (to the extent not provided for):

- i) Claims against the Company not acknowledged as debts Rs. 620.01 lacs (Previous Year Rs. 812.11 lacs).

Description	As at March 31, 2020	As at March 31, 2019
Sales Tax/Trade Tax Act	54.42	54.42
Central Excise Act	121.49	258.78
Finance Act, 1994	28.25	83.06
Others	415.85	415.85
<b>Total</b>	<b>620.01</b>	<b>812.11</b>

All the above matters are subject to legal proceedings in the ordinary course of business. The legal proceedings, when ultimately concluded will not in the opinion of the management, have a material effect on results of operations or financial position of the Company.

The amount shown in Note No. 6 (i) above represent the best possible estimates arrived on the basis of demand raised by the claimant and does not include interest if any, payable thereon from the date of demand. The uncertainties and timing of the cash flows are dependent on the outcome of different legal processes which have been invoked by the company or the claimants, as the case may be and, therefore cannot be estimated accurately. The Company does not expect any reimbursement in respect of above contingent liabilities.

In the opinion of the management, no provision is considered necessary for the disputes mentioned above on the ground that there are fair chances of successful outcome of the appeals

The Hon'ble High Court of Uttar Pradesh has directed the State Government to determine the interest liability for the period of delayed payment of sugarcane price for sugar seasons 2012-13 to 2014-15 but no notice of demand has been so far made for the same. Further, no notice for demand has been received for the interest on delayed payment to sugarcane farmers for subsequent sugar seasons. Hence no provision for the same has been made in the books of accounts.

The Allahabad High Court vide Order dated 21.12.2017 stayed the retrospective operation of orders of UP State Government pertaining to waiver of society commission for earlier years. Considering the fact that no notice of demand for such society commission's amount has been served upon the company, the same has not been acknowledged as debts and no provision has been made. Based on the past industry practices, the management is confident that no liability will arise for the said periods.

There are numerous interpretative issues relating to the Supreme Court (SC) judgement on PF dated 28th February, 2019. The company will make provision, on receiving further clarity on the subject.

## Capital and other commitment

Estimated value of contracts (net of advances) remaining to be executed on Capital account Rs. 750.24 lacs (Previous year Rs. 20.79 lacs). The Company has other commitments, for purchase / sales orders which are issued after considering requirements per operating cycle for purchase / sale of goods and services, employee benefits including union agreements in normal course of business. The Company does not have any other long-term commitments or material non-cancellable contractual commitments / contracts, which may have a material impact on the financial statements.

7. Disclosures required under Section 22 of the Micro, Small and Medium Enterprises Development Act,2006 (MSMED ACT, 2006).

On the basis of supplier information available with the Company who have registered under the MSMED Act, 2006, the following are the details:

(₹ lacs)

S. No.	Description	As at March 31, 2020	As at March 31, 2019
1	Principal amount remaining unpaid to any supplier as at the end of the accounting year.	272.30	57.64
2	Interest due thereon remaining unpaid to any supplier as at the end of the accounting year.	17.06	12.80
3	The amount of interest paid by the company in terms of section 16, of MSMED Act, 2006, along with the amounts of the payment made to the suppliers beyond the appointed day during the year.	-	-
4	The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro, Small and Medium Enterprises Development Act, 2006	2.80	9.34
5	The amount of interest accrued but not due during the year.	-	1.50
6	The amount of further interest due and payable even in the succeeding period.	42.00	22.14

Dues to Micro and Small Enterprises have been determined to the extent such parties have been identified on the basis of information collected by the Management. This has been relied upon by the auditors.

8. The Special Resolution for reclassification of promoters' category was passed at 6th Annual General Meeting of the members of the Company. Thereafter, an application seeking reclassification of certain outgoing promoters from existing promoter group to the public category shareholders, in terms of provisions of regulation 31A (7) of SEBI (LODR) Regulations, 2015, was filed with SEBI/Stock Exchanges. The approval from SEBI/Stock Exchanges is awaited.
9. Certain banks had advanced Agri loans to sugarcane farmers through the erstwhile Simbhaoli Sugars Limited (ESSL) under the management and collection agreements and were provided Corporate Guarantee and post-dated cheques as security. These loans were to be repaid by the Company to the banks from the dues payable to sugarcane farmers against their supplies, but due to the overall downturn in the sugar industry and primacy to pay sugarcane dues ahead of all other payments, the Company could not repay these loans on the due date. Company had submitted a financial restructuring plan to its lenders in FY 2014-15. As per sanction of CDREG dated February 02, 2016 all the dues outstanding were proposed to be converted into term loans, subject to the consent of respective commercial banks. Two of the commercial banks have converted their dues into term loan in the financial year 2016-2017 and one of the commercial banks have converted their dues into term loan in financial year 2017-18.

Oriental Bank of Commerce (OBC), one of its bank, who has converted Agri Loan into corporate loan as aforesaid in financial year 2016-17. Prior to such conversion, OBC arbitrarily classified its outstanding Agri Loan as "Suspected Fraud" liability in March 2015 but subsequently, after following due process, including but not limited to obtaining specific permission from the Reserve

Bank of India (RBI), and in consultation with all other Consortium Lenders, sanctioned and disbursed a corporate loan in February 2016 for liquidating the Agri Loans. In addition, in an application filed by OBC at the Debt Recovery Tribunal, OBC confirmed a simultaneous closure of the matter and a consented decree was passed.

OBC had arbitrarily initiated recovery actions against the Company for the restructured corporate loan including an application filed before National Company Law Tribunal (NCLT), Allahabad Bench and recently Punjab National Bank had also filed an application before NCLT, Allahabad Bench under Insolvency and Bankruptcy Code, 2016 for recovery of their dues, causing a serious threat to the value available to all the stakeholders. OBC, had declared company and guarantors as willful defaulters against which company and guarantors have contested such declaration in the Hon'ble Punjab and Haryana High Court and earlier this year such impugned order of OBC was Set Aside by Hon'ble High Court. While on a Show Cause Notice on Willful Default by Punjab National Bank to company and its promoter, basis representations made before the screening committee and taking into account that forensic audit report of the Company, initiated by the Lenders, was also closed by unanimous consensus in Joint Lenders Meeting stating that there was no fraud or willful default, PNB has kept the declaration of willful default in Abeyance.

OBC had also filed a criminal complaint with the investigating agency declaring the credit facilities as "Suspected Fraud". The Company has denied any fraud on its part, provided adequate documentation for the same, while reiterating its commitment for repayment to all the lenders, basis future cash flows. Against such criminal complaint, the enforcement directorate had passed an attachment order against certain assets of the Company to the extent of Rs. 109.80 crores, against which the Company has preferred an appeal with the appropriate authority and the matter is sub-judice. The Company has sought legal advice in this matter and the legal advisors have opined that there have been various gross omissions and commissions at the banks' end including but not limited to OBC and that the Company should take appropriate action at the relevant forums at the required time.

10. The loans availed by the Company have been classified as Non-Performing Assets (NPA) by all the lenders and interest thereon is not being charged to the loan accounts by the commercial lenders as per circular of RBI. The Company has submitted a comprehensive debt resolution proposal with all the lenders, commensurating with its future cash flows. Majority of commercial lenders have shown their inclination to accept the debt resolution proposal of the Company and some of them had accepted the offered Earnest Money Deposit. Accordingly, interest expenses pertaining to commercial lenders, for the year ended March 31, 2020 amounting to Rs. 13,146.17 lacs (previous year ended March 31, 2019 Rs. 12,336.46 lacs) has not been recognized in the statement of profit and loss. A total amount of Rs. 37,454.23 lacs towards accrued interest has not been provided for in the books of accounts as at March 31, 2020. Since all the lenders have recalled their Credit Facilities during the last year, their principal and interest outstanding dues as at March 31, 2020 have been classified and shown under "Other Current Financial Liabilities". The terms of repayment, nature of security and overdue including unaccounted interest, if any, in accordance with existing agreements are as under:

## 12. Segment reporting

### i) Operating segments:

The company's operating segments are business segments, viz. sugar and alcohol, basis which chief operating decision maker (CODM) evaluates the company's performance and allocates resources

### ii) Geographical segments:

Since the Company's activities/operations are primarily within the country and considering the nature of products it deals in, the risks and returns are same and as such there is only one geographical segment.

### iii) Segment accounting policies:

In addition to the significant accounting policies applicable to the business segments as set out in note 2 above the accounting policies in relation to segment accounting are as under:

#### A) Segment revenue and expenses:

Joint revenue and expenses of segments are allocated amongst them on a reasonable basis. All other segment revenue and expenses are directly attributable to the

segments.

### B) Segment assets and liabilities:

Segment assets include all operating assets used by a segment and consist principally of operating cash, debtors, inventories and fixed assets, net of allowances and provisions which are reported as direct offsets in the balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities. Segment assets and liabilities do not include income taxes. While most of the assets/liabilities can be directly attributed to individual segments, the carrying amount of certain assets/liabilities pertaining to two or more segments is allocated to the segments on a reasonable basis.

### C) Inter segment sales:

Inter segment sales between operating segments are accounted for at market price. These transactions are eliminated on consolidation.

### G. Risks related to defined benefit plans:

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary overtime. Thus, the Company is exposed to various risks in providing the above benefits which are as follows:

- 1) **Interest rate risk:** The plan exposes the company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in increase in the value of the liability.
- 2) **Liquidity Risk:** This is the risk that the Company is not able to meet the short-term gratuity pay-outs. This may arise due to non-availability of enough cash / cash equivalent to meet the liabilities or holding of its liquid assets not being sold in time.
- 3) **Salary Escalation Risk:** The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
- 4) **Demographic Risk:** The Company has used certain mortality and attrition assumptions in valuation of the liability.
- 5) **Regulatory Risk:** Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20,00,000).
- 6) **Asset Liability Mismatching or Market Risk:** The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.
- 7) **Investment Risk:** The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

**Note:** The above is a standard list of risk exposures in providing the gratuity benefit. The Company is advised to carefully examine the above list and make suitable amendments (including adding more risks, if relevant) to the same before disclosing the above in its financial statements.

### H. Method and Assumptions related terms:

- 1) **Discount Rate:** Discount rate is the rate which is used to discount future benefit cash flows to determine the present value of the defined benefit obligation at the valuation date. The rate is based on the prevailing market yields of high quality corporate bonds at the valuation date for the expected term of the obligation. In countries where there are no such bonds, the market yields at the valuation date on government bonds for the expected term is used.
- 2) **Salary Escalation Rate:** The rate at which salaries are expected to escalate in future. It is used to determine the benefit based on salary at the date of separation.

- 3) **Attrition Rate:** The reduction in staff/employees of a company through normal means, such as retirement and resignation. This is natural in any business and industry.
- 4) **Mortality Rate:** Mortality rate is a measure of the number of deaths (in general, or due to a specific cause) in a population, scaled to the size of that population, per unit of time.
- 5) **Projected Unit Credit Method:** The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The Projected Unit Credit Method requires an enterprise to attribute benefit to the current period (in order to determine current service cost) and the current and prior periods (in order to determine the present value of defined benefit obligations).

## 22. Financial risk management objectives

The Company's principal financial liabilities comprise loans and borrowings, trade payables and other payables. The main purpose of the financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and bank balances that derive directly from its operations. The Company also holds investments in equity shares and debentures of its subsidiaries and joint ventures.

The Company's activities expose it mainly to credit risk, liquidity risk and market risk. This note explains the sources of risks which the entity is exposed to and how it mitigates that risk.

### i) Credit risk

- a. Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. Company is exposed to credit risk from trade receivables and deposits with banks. To manage this, Company periodically assesses the financial reliability of customers, taking into account factors such as credit track record in the market and past dealings with the Company for extension of credit to customer. Outstanding customer receivables are regularly monitored. Concentrations of credit risk are limited as a result of the Company's large and diverse customer base. Company has also taken advances and security deposits from its customer / agents, which mitigate the credit risk to an extent. The ageing of the trade receivables is given below:

(₹ lacs)

Particulars	As at March 31, 2020	As at March 31, 2019
Up to 6 months	3,111.82	5,172.01
More than 6 months	798.24	810.42
<b>Total receivables</b>	<b>3,910.06</b>	<b>5,983.43</b>

- b. The impairment analysis is performed at each balance sheet date on individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The Company makes general provision for lifetime expected credit loss based on its previous experiences of provision/write off in the previous years.

C. Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which term deposits are maintained. Generally, term deposits are maintained with banks with which Company has also availed borrowings.

### ii) Liquidity risk

Liquidity risk is the risk that a company may encounter difficulties in meeting its obligations associated with financial liabilities that are settled by delivering cash or other financial assets. Since the Company is making continuous losses, presently it monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs. The table below provides undiscounted cash flows towards financial liabilities into relevant maturity based on the remaining period at the balance sheet to the contractual maturity date.

### iii) Market risk

The company is exposed to the risk of movements in interest rates, inventory price and foreign currency exchange rates that affects its assets, liabilities and future transactions. Market risks comprises of four types of risks such as:

#### a) Interest rate risks

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings obligations with floating interest rates.

#### b) Commodity risk

'Sugar industry being cyclical in nature, realisations get adversely affected during downturn. Higher cane price or higher production than the demand ultimately affect profitability. The Company has partly mitigated this

risk adopting integrated business model by diversifying into distillation, for better price realisation of the by-products.

#### c) Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

The Company's exposure to the risk of changes in foreign exchange rates is limited to the Company's operating activities (when revenue or expense is denominated in a foreign currency), which are not material.

Foreign Currency exposures that are not hedged by derivative instruments or otherwise as follows:

Description	As at March 31, 2020		As at March 31, 2019	
	Amount in foreign currency (Lacs)	Amount (₹ Lacs)	Amount in foreign currency (Lacs)	Amount (₹ Lacs)
Trade Receivables -USD	\$1.59	124.79	\$3.62	250.71
Advance Received from Customer – USD	-	-	\$0.13	8.99

#### D) Regulatory risk

Sugar industry is regulated both by Central Government as well as State Government. Central and State Governments policies and regulations affect the sugar industry and the Company's operations and profitability. Distillery business is also dependent on the Government policy.

### ii) Fair Value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognized and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

#### Following methods and assumptions used to estimate the fair values:

- Fair value of cash and cash equivalents and short term deposits, trade and other short term receivables, trade payables, short term borrowings and other current financial assets and liabilities carried at amortized cost is not materially different from its carrying cost, largely due to the short-term maturities of these financial assets and liabilities

**Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

**Level 3:** Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There is no transfer from one level to another level during the year.

Following table shows the reconciliation from the opening balances to its closing balances of the Level 3 values:

(₹ lacs)

Particulars	Carrying Amount
<b>Balance as at April 01, 2018</b>	2,322.29
Less : Fair value loss recognized in Other Comprehensive Income in FY 2018-19	2,322.29
<b>Balance as at March 31, 2019</b>	-
Less : Fair value loss recognized in Other Comprehensive Income in FY 2019-20	-
<b>Balance as at March 31, 2020</b>	-

24. The outstanding balance of the Company with its subsidiary company, Simbhaoli Power Private Limited (SPPL) as reported in standalone financial statements, is subject to reconciliation on account of difference in interpretation of certain long term commercial agreement. Pending reaching to final settlement with SPPL, no adjustment has been made in the books of accounts for Rs.253.13 lacs being the difference in the value of bagasse sold in the accounting year.

25. Details of loan and advances given, investment made and securities provided as required to be disclosed as per provisions of Section 186 (4) of the Companies Act, 2013 have been disclosed in respective heads.

26. The previous year's figures as on the date of transition have been reworked, regrouped, rearranged and reclassified wherever necessary. Amounts and other disclosures for the preceeding year including figures as on the date of transition are included as an integral part of the current year financial statements and are to be read in relation to the amounts and other disclosures relating to the current year.

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF SIMBHAOLI SUGARS LIMITED

## Report on the Consolidated Financial Statements

### Qualified Opinion

We have audited the accompanying Consolidated financial statements of Simbhaoli Sugars Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiary together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31st, 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information and notes for the year ended on that date (hereinafter referred to as "the Consolidated financial statement").

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matter described in the Basis for Qualified Opinion section of our report, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the consolidated state of affairs of the Group as at March 31st, 2020, their consolidated losses including other comprehensive loss, their consolidated cash flows and consolidated statement of changes in equity for the year then ended.

### Basis for Qualified Opinion

- i) The Consolidated Financial Statements include the financial Statements for the nine month ended December 31st, 2019 of one subsidiary i.e, Simbhaoli Power Private Limited, whose financial Statements reflect total assets of Rs. 34,494.99 Lakhs as at December 31st, 2019, total revenue of Rs.4198.63 Lakhs and net loss after tax and total comprehensive loss of Rs. 1006.79 Lakhs, as considered in the Consolidated Financial Statements which have been reviewed by their independent auditors. As stated in Note no.26 of consolidated financial Statements, have been prepared by the management of holding company by consolidating only the limited reviewed financial statement for the nine months ended on December 31st, 2019 because the standalone financial statements for the year ended for March 31st, 2020 have not been yet finalized, approved and submitted by the management of SPPL for the purpose of consolidation. Consequently, the consolidated financial Statements for the year ended March 31st, 2020 does not include the financial Statements for the three months period i.e. from January 1, 2020 to March 31st, 2020 and various transactions entered into between the holding Company and SPPL during the aforesaid three months periods have not been eliminated but included in the enclosed financial
- Statements. Had the financial Statements for the year ended March 31st, 2020 of SPPL been consolidated, many elements in the accompanying financial Statements would have been materially affected. The effects on the consolidated financial Statements due to the failure to consolidate the financial Statements have not been determined. Our opinion on the consolidated financial Statements, in so far as it relates to the amounts and disclosures included in respect of this entity, is based solely on report for the nine month ended December 31st, 2019 of their auditors of SPPL as no further information have been made available to us by the management of SPPL or by the management of holding company.
- ii) As stated in Note no.27 of consolidated financial Statements, during the quarter ended September 30, 2019, Uttar Pradesh Electricity Regulatory Commission ('UPREC') has notified UPREC (Captive and Renewable Energy Generation Plants) Regulations, 2019 ('CRE Regulation 2019') which has, inter alia, reduced the tariff applicable to bagasse based generation plants in the state of Uttar Pradesh w. e. f. April 1, 2019. Based on writ petition filed and legal opinion obtained, SPPL has recorded revenue from operations for the period April to September, 2019 at or basis pre CRE Regulation 2019 Tariff Rate instead at the reduced tariff. Management's computation, as reviewed by the statutory auditors of SPPL, shows that revenue from operations for the nine months ended December 31st, 2019 would have been lower by Rs 796.16.Lakhs and cost of material consumed for the nine months ended December 31st, 2019 would have been lower by Rs 51.91Lakhs, if accounted for at or basis reduced tariff as per CRE Regulations 2019. These conditions as discussed in detail in Note No 27 indicate the existence of material uncertainty in relation to tariff under CRE Regulations 2019 and its consequential impact on the financial statements, if any.
- iii) We draw attention to Note No.4 of the consolidated financial Statements regarding non provisions for impairment in the carrying value of Property, Plant and Equipments by the Holding Company We are not made available of appropriate impairment assessment carried out by the management and accordingly, we are unable to comment on the same including compliance with the Ind AS-36 ('Impairment of Assets') and any consequential adjustments that may arise in this regard in these consolidated financial Statements.
- iv) We draw attention to Note No. 9 of the consolidated Financial Statements regarding non-provision of interest expense amounting Rs.13,146.17 Lakhs (Previous year Rs. 12,336.46 Lakhs) on certain borrowings for the year ended March 31st, 2020 for the reasons stated in the said note. The total amount of interest expense not provided for in the accounts aggregates to Rs. 37,454.23 Lakhs till March 31st, 2020 (Previous year Rs.24,307.59 Lakhs). Had the aforesaid interest expense been

provided for, the Finance Cost, Net Loss after tax and Total Comprehensive Loss for the year ended March 31st , 2020 would have been increased by Rs. 13,146.17 Lakhs (P.Y. Rs. 12,336.46 Lakhs), the Current Financial Liability as at March 31st , 2020 would have been increased and shareholder's funds as at March 31st , 2020 would have been decreased by Rs. 37,454.23 Lakhs (P.Y. 24,307.59 Lakhs)

- v) We draw attention to Note No. 5, of the consolidated financial statement regarding non- provision of interest liability in respect of delayed payment of sugarcane price for the reasons stated in the said note. The amount of interest not provided for in the books has not been ascertained.

Our opinion is qualified on the above matters.

**Material Uncertainty related to Going Concern:**

As stated in Note No. 4 of the consolidated financial Statements, the financial statement of the holding company has been prepared on going concern basis. Events or conditions as set forth in Note No. 4 indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as going concern. The ability of the holding company to continue depends on the decision of National Company Law Tribunal under the Insolvency and Bankruptcy Code 2016, the holding company's ability to get its borrowings restructured as stated in the said note and turnaround of its sugar and distilleries operations on sustainable basis.

Our report is not modified in respect of the above matter.

**Other Matters**

We draw your attention to Note No. 4 to the consolidated financial Statements, which describes the Management's assessment of the impact of COVID-19 pandemic and the resultant lockdowns on the significant uncertainties involved in developing some of the estimates involved in preparing the consolidated financial statements. Based on the information available on this date, Management believes that no further adjustments are required to the consolidated financial Statement. However, in view of very uncertain economic environment, a definitive assessment of the impact is highly dependent upon circumstances as they evolve in future and actual results may differ from those estimated as at the date of approval of these consolidated financial Statements.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the basis for qualified opinion section, we have determined the matters described below to be the key audit matters to be communicated in our report. Below Key Audit Matters have been reproduced from the report on the audit of standalone financial statements of the Holding Company.

S. No.	Key Audit Matters	Auditor's Response
1	<p><b>Impact of government policies/ notifications on recognition of subsidy accruals/claims and their recoverability</b></p> <p>During the year, the Holding Company has recognized accruals/subsidy claims amounting to Rs. 5,915.84 Lakhs (P.Y. 4,201.83 Lakhs). As at March 31st, 2020, the Company has receivables of Rs. 7,292.25 Lakhs relating to such claims which is significant to the financial statements.</p> <p>We focused on this area because recognition of accruals/ claims and assessment of recoverability of the claims is subject to significant judgment of the management. The area of judgment includes certainty around the satisfaction of conditions specified in the notifications/policies, collections, provisions thereof, likelihood of variation in the related computation rates, and basis for determination of accruals/ claims.</p> <p>For details: - Refer NoteNo.17 to the Financial Statements.</p>	<p><b>Principal Audit Procedures</b></p> <p>We understood and tested the design and operating effectiveness of controls as established by management of the Holding Company in recognition and assessment of the recoverability of the claims.</p> <p>We evaluated the management's assessment regarding reasonable certainty for complying with the relevant conditions as specified in the notifications/policies and collections.</p> <p>We considered the relevant notifications/policies issued by various authorities to ascertain the appropriateness of the recognition of accruals/claims, adjustments to claims already recognized pursuant to changes in the rates and basis for determination of claims.</p> <p>We tested the ageing analysis and assessed the information used by the management of the Holding Company to determine the recoverability of the claims by considering claim collection against historical trends.</p> <p>Based on the fulfillment of the conditions as precedent in relevant notification management of the Holding Company is reasonably certain about the recoverability of the claims/ accrual.</p> <p>Based on the above procedures performed, the management's estimates related to recognition of subsidy accruals/claim and their recoverability are considered to be reasonable.</p>
2.	<p><b>Valuation and determination of inventory</b></p> <p>As on March 31st, 2020, the holding company has inventory of sugar with the carrying value Rs. 48,795.81 Lakhs which forms major part of the total assets of the Holding Company. The inventory of sugar is valued at the lower of cost and net realizable value.</p> <p>The Physical Verification of inventory could not be observed by us due to lock-down restrictions at the year-end.</p> <p>We considered the value of the inventory of sugar as a key audit matter given the relative size of the balance in the financial statements and significant judgment involved in the consideration of factors such as minimum sale price, monthly quota, fluctuation in selling prices and the related notifications of the Government in determination of net realizable value.</p>	<p><b>Principal Audit Procedures</b></p> <p>We understood and tested the design and operating effectiveness of controls as established by the management in determination of net realizable value of inventory of sugar.</p> <p>We considered various factors including the actual selling price prevailing around and subsequent to the year-end minimum selling price &amp; monthly quota and other notifications of the Government of India, initiatives taken by the Government with respect to sugar industry as a whole.</p> <p>Based on the above procedures performed, the management's determination of the net realizable value of the inventory of sugar as at the year ends and comparison with cost for valuation of inventory is considered to be reasonable.</p> <p>The Company has procedure of physical verification of inventories at regular intervals. Physical Verification of finished goods, By products across all units were carried out during the month of June 2020 in the presence of independent firm of Chartered Accountants who have been entrusted with the responsibilities of observing and participating in such verification.</p> <p>We have reviewed the credentials, technical and other expertise of the professional firm deployed for carrying amount and observing verification.</p> <p>We received the report and certificate submitted by Chartered Accountants Firm.</p>

S. No.	Key Audit Matters	Auditor's Response
		<p>We applied alternate procedures to audit the existence of inventory as per guidance provided in SA 501 "Audit Evidence- Specific Considerations for Selected Items", which include inspection of supporting documentation relating to purchases, production, consumption and sales, results of cyclical count performed by the management through the year and such other third party evidences, as applicable.</p> <p>While necessary review and other corroborative evidence were obtained and verified, reliance has been placed on professional expert's report and conclusion drawn by them on the matter.</p>

#### Other Information

The Holding Company's Board of Directors is responsible for the other information. The Other information comprises the information included in the report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the for the matters stated in section 134(5) of the companies act, 2013("the Act")with respect to preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

The respective responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether

due to fraud or error which have been used for the purpose for preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective management and Board of Directors of the entities included in the Group are responsible for assessing the ability of each entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those respective boards of directors of the companies included in the group are also responsible for overseeing the financial reporting process of the group.

#### Auditors' Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards of Auditing (SAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the Going Concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a Going Concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial

statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its jointly controlled entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding financial information of the entities or business activities within the group of which we are independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are independent auditors.
- We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Other Matter

The consolidated financial statements include the audited financial statements of one subsidiary, whose financial statements / financial information reflect total assets of Rs. 141.68 Lakhs as at March 31st, 2020, total revenue of Rs. 6.48 Lakhs, net profit after tax and total comprehensive income of Rs. 3.13 Lakhs for the year ended March 31st, 2020 respectively and cash outflows of Rs. 0.03 Lakhs for the year ended March 31st, 2020, as considered in the consolidated financial statements which have been audited by their respective independent auditors. The independent auditors' reports on financial statements/ financial information of these entities have been furnished to us and our opinion on the consolidated financial statements, in so far as it relates

to the amounts and disclosures included in respect of these entities, is based solely on the report of such auditors and the procedures performed by us are as stated in paragraph above.

Our conclusion on the Statement is not modified in respect of this matter.

#### Report on Other Legal and Regulatory Requirements

1. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its directors during the year is in accordance with provisions of section 197 of the Act and not in excess of the limits laid down therein.
2. As required by Section-143(3) of the Act, we report that:-
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - (b) Except for the effects of the matter described in the Basis for Qualified Opinion paragraph above, in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this report are in with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - (d) Except for the effects of the matter described in the Basis for Qualified Opinion paragraph above, in our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
  - (e) On the basis of the relevant assertion contained in the audit reports on consolidated financial statements of each subsidiary company which are incorporated in India, none of the Directors of any such company is disqualified as on March 31st, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
  - (f) With respect to the adequacy of the internal financial controls with reference to financial statement of the Group and the operating effectiveness of such Controls, refer to our separate report in Annexure – 'A'
  - (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on separate financial statements as also the other financial information of a subsidiary, as noted in the 'Other Matter' Paragraph:

- i. The consolidated financial statements disclosed the impact of pending litigations on its financial position of the Group. Refer Note No. 5 to the consolidated financial statement.
- ii. The Group does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding company and its subsidiary company.

## **Annexure - 'A' to the Independent Auditor's Report**

(The Annexure – 'A' referred to in our Independent Auditors' Report to the members of the Simbhaoli Sugars Ltd. ("the Holding Company") on the consolidated Ind AS financial statements for the year ended March 31st, 2020)

### **Report on the Internal Financial Control under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated Ind AS financial statements of Simbhaoli Sugars Ltd. ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the group") as at March 31st, 2020 and for the year ended March 31st, 2020, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies, which are companies incorporated in India, for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Holding Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to consolidated financial statements criteria established by the Group considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls with reference to consolidated financial statements issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ("the Act").

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial control with reference to consolidated financial statements based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Control with reference to consolidated financial statements (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of

internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system with reference to consolidated financial statements.

#### **Meaning of Internal Financial Controls with reference to consolidated financial statements**

A group's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statement for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and disposition of the assets of the company; (2) provide reasonable assurance that transaction are recorded as necessary to permit preparation of consolidated financial statement in accordance with generally accepted accounting principles, and that receipt and expenditures of the company are being made only in accordance with authorizations of management and directors of the company;

and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statement.

**Inherent Limitations of Internal Financial Controls with reference to consolidated financial statements**

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion except for the matters described in the Basis for Qualified Opinion, Material Uncertainty on Going Concern, the Holding Company has, in all material respects, an adequate internal financial control system with reference to consolidated financial statements and such internal financial control with reference to consolidated financial statements were operating effectively as at March 31st, 2020, based on the internal controls with reference to consolidated financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls with reference to Financial Reporting issued by ICAI.

**Other Matters**

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements in so far as it relates to one subsidiary company which is company incorporated in India, is based solely on the corresponding reports of the auditor of such company. Our opinion is not modified in respect of the above matter.

We draw attention to the fact that Auditors' report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in respect of one subsidiary i.e. Simbhaoli Power Private Ltd. has not been provided to us and accordingly we do not express any opinion on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to Simbhaoli Power Private Ltd. as the standalone financial statements for the year ended for March 31st, 2020 then ended have not been yet finalized, approved and submitted by the management of SPPL for the purpose of consolidation.

### 2.1 Basis of preparation and presentation of Consolidated Financial Statements

#### i) Statement of Compliance with Ind AS

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 (the Act) read with the Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and relevant amendment rules thereafter and accounting principles

generally accepted in India.

These consolidated financial statements have been prepared on going concern basis using the significant accounting policies and measurement bases summarized below. Accounting Policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in accounting policy hitherto in use. In those cases the new accounting policy is adopted in accordance with the transitional provisions stipulated in that Ind AS and in absence of such specific transitional provision, the same is adopted retrospectively for all the periods presented in these consolidated financial statements.

#### ii) Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

#### iii) Principles of consolidation

A. The consolidated financial statements related to Simbhaoli Sugars Limited ("The Company") and its Subsidiaries (collectively referred as "The Group").

In the case of subsidiaries, control is achieved when the Group is exposed, or has right, to variable return from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

i. The Group re-assesses whether or not it controls an investee if facts and circumstances indicates that there are changes to one or more of the three elements of control.

ii. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the group gains control until the date the Group ceases to control the subsidiary.

iii. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that the Group member's financial statement in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

iv. The consolidated financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent the Group, i.e. year ended on March 31, 2020, except in case of Simbhaoli

Power Private Limited where nine months consolidation has been done ( Refer Note no. 4 ).

- v. Profit or loss and each component of other comprehensive income (OCI) are attributed to the owners of the Group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

#### **B. Consolidation procedure**

The consolidated financial statements relate to Simbhaoli Sugars Limited ('the Company') and its subsidiary companies. The consolidated financial statements have been prepared on the following basis:

- i. The financial statements of the Company and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intra-group transactions.
- ii. Profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and property, plant & equipment, are eliminated in full.
- iii. In case of foreign subsidiaries, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognised in the Foreign Currency Translation Reserve.
- iv. Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- v. The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as on the date of disposal is recognised in the Consolidated Statement of Profit and Loss being the profit or loss on disposal of investment in subsidiary.
- vi. Non-Controlling Interest's share of profit / loss of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to owners of the Group.
- vii. Non-Controlling Interest's share of net assets of consolidated subsidiaries is identified and presented in the Consolidated Balance Sheet separate from liabilities and the equity of the owners of the Group.

#### **C. Associates**

The Group's investments in its associate are accounted for using the equity method.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

#### **iv) Basis of preparation of consolidated financial statements**

The consolidated financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities (refer accounting policy regarding financial instruments) and assets for defined benefit plans that are measured at fair value and less cost of sale wherever required. The methods used to measure fair values are discussed further in notes to consolidated financial statements.

#### **(v) Functional and presentation currency**

These consolidated financial statements are presented in Indian rupees (INR), which is group's functional currency. All amounts have been rounded off to nearest lacs unless otherwise indicated.

#### **(vi) Operating Cycle**

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013 based on the nature of services rendered and time between the acquisition of asset for providing services and their realization in cash and cash equivalents

#### **2.2 Current versus non-current classification**

The group presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it satisfies any of the following criteria:

- Expected to be realized or intended to be sold or consumed within normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realized within twelve months after the reporting date, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle liability for at least twelve months after the reporting date.

A liability is treated as current when it satisfies any of the following.

- Expected to be settled in the Group's normal operating cycle;
- Held primarily for the purpose of trading;
- Due to be settled within twelve months after the reporting date; or
- The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.
- Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments does not affect its classification.

Current liabilities include the current portion of non-current financial liabilities. All other liabilities are classified as non-current.

The Group has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

### 2.3 Use of Estimates and management judgements

The preparation of consolidated financial statements in conformity with Indian Accounting Standards (Ind AS) requires management of the group to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets, liabilities and related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date.

The estimates and management's judgements are based on previous experience and other factors considered reasonable and prudent in the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The areas involving critical judgement are as follows:

#### i) Material uncertainty about going concern:

In preparing consolidated financial statements, management has made an assessment of Group's ability to continue as a going concern. Consolidated financial statements are prepared on a going concern basis. The management is aware, in making its assessments, of material uncertainties related to events or conditions that may cast significant doubt upon the group's ability to continue as a going concern. Further details on going concern are disclosed in Note No. 5

#### ii) Fair value measurements of financial instruments:

When the fair value of financial assets and liabilities recorded in the Balance sheet cannot be measured based on the quoted market price in the active markets, their fair value is measured using valuation technique. The input to these model is taken from the observable market wherever possible, but if this is not feasible, a review of judgement is required to establish fair values. Changes in assumptions related to these inputs could affect the fair value of financial instrument.

#### iii) Employee benefit plans:

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Group considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

#### iv) Recoverability of trade receivables:

The Group has a stringent policy of ascertaining impairments, if any, as result of detailed scrutiny of major cases and through determining expected credit losses. Despite best estimates and periodic credit appraisals of customers, the Group's receivables are exposed to delinquency risks due to material adverse changes in business, financial or economic conditions that are expected to cause a significant change to the party's ability to meet its obligations. All such parameters relating to impairment or potential impairment are reviewed at each reporting date

#### v) Provision and contingencies:

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgement by management regarding the probability of exposure to potential loss. The timing of recognition and quantification of the liability requires the

application of judgement to existing facts and circumstances, which can be subject to change.

#### vi) Income Tax:

The Group's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

Deferred tax assets are recognised for unused tax losses and unused tax credit to the extent that it is probable that taxable profit would be available against which the losses could be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies

#### vii) Useful life and residual value of plant, property equipment and intangible assets:

The useful life and residual value of plant, property equipment and intangible assets are determined based on technical evaluation made by the management of the expected usage of the asset, the physical wear and tear and technical or commercial obsolescence of the asset. Due to the judgements involved in such estimations, the useful life and residual value are sensitive to the actual usage in future period.

### 2.4 Significant Accounting Policies

#### A. Property, Plant & Equipment & Capital work in Progress

##### i. Recognition and measurement

Property, plant and equipment are tangible items that are held for use in the production or supply for goods and services, rental to others or for administrative purposes and are expected to be used for more than one period.

The cost of an item of property, plant and equipment is being recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Freehold lands are stated at cost. All other items of property, plant and equipment are stated at cost net of recoverable taxes less accumulated depreciation, and impairment loss, if any.

The cost of an asset includes the purchase cost of assets, including import duties and non-refundable taxes, and any directly attributable costs of bringing an asset to the location and condition of its intended use. Interest on borrowings used to finance the construction of qualifying assets are capitalized as part of the cost of the asset until such time that the asset is ready for its intended use.

Items of spare parts, stand-by equipments and servicing equipments which meet the definition of property, plant and equipment are capitalized. Other spare parts are carried as inventory and recognized in the statement of profit and loss on consumption. When parts of an item of Property, plant & equipments have different useful lives, they are accounted for as separate component.

When a significant part of property, plant and equipment are required to be replaced at intervals, the group derecognizes the replaced part and recognise the new part with its own associated life and it is depreciated accordingly. Likewise when a major repair is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement, if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the

Statement of Profit and Loss as incurred.

The present value of the expected cost of decommissioning of an asset after its use, if any, is included in the cost of the respective asset if the recognition criteria of provisions are met.

The cost and related accumulated depreciation are eliminated from the financial statement upon sale or retirement of the asset and resultant gains or losses are recognized in the Statement of Profit and Loss.

Assets identified and technically evaluated as obsolete are retired from active use and held for disposal are stated at lower of its carrying amount and fair value less cost to sell.

Capital work-in-progress, representing expenditure incurred in respect of assets under development and not ready for their intended use, are carried at cost. Cost includes related acquisition expenses, construction cost, related borrowing cost and other direct expenditure.

#### ii. Subsequent Expenditure.

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

### B. Intangible Assets

Intangible assets are recognized when it is probable that the future benefits that are attributable to the assets will flow to the Group and the cost of the assets can be measured reliably.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from its use. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss when the asset is derecognized.

### C. Depreciation and Amortization

The classification of plant and machinery into continuous and non-continuous process is done as per their use and depreciation thereon is provided accordingly. Depreciation commences when the assets are available for their intended use. The depreciation is provided by applying the following method at the useful lives specified in schedule II to the Companies Act, 2013:

However, in respect of the plant and machinery acquired under Business Transfer Agreement by SPPL (Simbhaoli Power Private Limited), where life has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset etc.

Category of PPE	Depreciation Method
Building owned by SPPL	Written down value Method
Other Buildings	Straight line Method
Plant & Machinery (used in generation of power)	Straight line Method
Plant & Machinery (other than above)	Straight Line Method

Computer Equipment	Straight line Method
Furniture & Fixtures	Straight line Method
Motor Vehicles	Written down value Method
Office Equipment	Straight line Method

PPE costing up to Rs. 5,000 are fully depreciated in the year of purchase. Freehold land is not depreciated.

Intangible assets are amortized on a straight-line basis over the estimated useful economic life of the assets. The Group uses a rebuttable presumption that the useful life of intangible assets is ten years from the date when the assets is available for use.

Right of use assets are depreciated on straight line method (SLM) over the period of life of right of use assets or lease terms whichever expire earlier except in case of right of use assets, the ownership of which is proposed to be transferred to the Group or the cost of such assets reflects that the group will exercise a purchase option, the same is depreciated on straight line method (SLM) over the useful life of the assets.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each financial year and are given effect to wherever appropriate.

### D. Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Group's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

#### i. The Group as a lessee

The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the group assesses whether:

- The contract involves the use of an identified asset.
- The group has substantiated all of the economic benefits from use of the asset through the period of the lease and;
- The group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend

or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Right of use assets is evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are re-measured with a corresponding adjustment to the related right-of-use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

**ii. As a lessor**

Leases for which the group is a lessor is classified as finance lease or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as finance lease. All other leases are classified as operating lease. When the group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. The sub-lease is classified as finance lease or operating lease with reference to right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of such lease.

**Transition**

Effective April 1, 2019, the group adopted Ind AS 116-“Leases” and applied the standard to all its existing lease contracts existing as on April 1, 2019 using modified retrospective method and has taken cumulative adjustment to the retained earnings, on the date of initial application. The group has also applied practical expedient provided in the standard which permits the group not to reassess the existing contracts and to apply the new standard only on those contracts which were classified as operating leases under Ind AS 17, excluding leases of low value assets and leases expiring within twelve months from the date of initial application.

**E. Government Grant**

Grants from the government are recognized at their fair value where there is reasonable assurance that the grant will be received, and the group will comply with all attached conditions.

Government Grants relating to the purchase, construction or otherwise acquired non-current assets, are recognized as deferred income in the balance sheet and are credited to profit or loss on a systematic and rational basis over the expected lives of the related assets and presented in other income.

Government Grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the group with no future related costs are recognized in statement of profit or loss in the period in which they become receivable.

**F. Borrowing**

Long term borrowing are initially recognised at net of material transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the statement of Profit and Loss over the period of the borrowing using the effective interest method.

**G. Borrowing Cost**

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs. Other borrowing costs are expensed in the period in which they are incurred.

**H. Employee benefit plans:**

Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard (Ind AS)-19 - ‘Employee Benefits’.

**i) Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expense off as the related service is provided. A liability is recognized for the amount expected to be paid e.g., under short-term cash bonus, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii) Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in statment of profit or loss in the periods during which the related services are rendered by employees. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

Retirement benefit in the form of superannuation fund is a defined contribution scheme. The Group has established

a Superannuation Fund Trust to which contributions are made quarterly. The Group recognizes contribution payable to the superannuation fund scheme as expenditure, when an employee renders the related service. The Group has no other obligations beyond its quarterly contributions.

### iii) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized as other comprehensive income. The group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognized immediately in statement of profit or loss. The group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

### iv) Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Re-measurements gain or losses are recognized in statement of profit or loss in the period in which they arise.

### v) Voluntary Retirement Scheme

Expenditure on voluntary retirement scheme is charged to the Statement of Profit and Loss in the year in which it is incurred.

## I. Inventories

Inventories, except By-products are valued at the lower of cost

and net realizable value. By-products are valued at estimated net realizable value. The basis of determining cost for different categories of inventory are as follows:

Stores and spare parts	-	Monthly weighted average
Raw materials	-	First in first out (FIFO)
Process stocks/finished Goods	-	Material cost plus appropriate share of labour and manufacturing overheads.
Stock in trade	-	First in first out (FIFO)

## J. Financial Instruments

### i) Financial Asset

#### a. Classification

The group classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and contractual cash flow characteristics of the financial asset.

#### b. Initial Recognition and Measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

The financial assets include equity and debt securities, trade and other receivables, loans and advances, cash and bank balances and derivative financial instruments.

#### c. Subsequent Measurement

For the purpose of subsequent measurement, financial assets are classified in the following categories:

- At amortized cost,
- At fair value through other comprehensive income (FVTOCI), and
- At fair value through profit or loss (FVTPL).

#### d. Debt instrument at amortized cost

A "Debt instrument" is measured at the amortized cost if both the following condition are met:

- The assets are held within a business model whose objective is to hold assets for collecting contractual cash flow (business model test), and
- Contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principle and interest on the principle amount outstanding (contractual cash flow characteristics).

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount, premium, fee or costs that are an integral part of an EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss.

#### e. Debt instrument at fair value through profit or loss

Debt instruments included within the fair value through profit or loss (FVTPL) category are measured at fair value with all changes recognized in the statement of profit and loss.

#### f. Debt instruments at fair value through other comprehensive income

A financial asset should be measured at FVTOCI if both

the following conditions are met:

- The asset is held within a business model in which asset are managed both in order to collect contractual cash flows and for sale, and
- Contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principle and interest on the principle amount outstanding.

After initial measurement (at fair value minus transaction cost), such financial assets are measured at fair value with changes in fair value recognized in Other comprehensive income except for:

- Interest calculated using EIR
- Foreign exchange gain and losses , and
- Impairment losses and gains

**g. Equity investments**

All equity investments in the scope of Ind AS 109 are measured at fair value. Deemed cost is the carrying amount under the previous GAAP as at the transition date i.e. April 01, 2016. Equity instruments included within the FVTPL category, if any, are measured at fair value with all changes recognized in statment of profit or loss. The Group may make an irrevocable election to present in OCI subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. When the fair value has been determined based on level 3 inputs, the difference between the fair value at initial recognition and the transaction price, if loss, is recognized through retained earnings and after initial recognition subsequent changes in fair value of equity instruments is recognised as gain or loss to the extent it arises from change in input to valuation technique. If the Group decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

**h. De-recognition**

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognized when:

- The right to receive cash flows from the assets have expired or
- The group has transferred substantially all the risks and rewards of the assets, or
- The group has neither transferred nor retained substantially all the risks and rewards of the assets, but has transferred control of the assets.

**ii) Financial liabilities**

**a. Classification**

Debt and equity instruments issued by the group are classified as either financial liabilities or as equity in accordance with the substance of the contractual agreements and the definitions of financial liability and equity instrument.

**b. Initial recognition and measurement**

The group recognizes financial liability when it becomes a party to the contractual provision of the instrument. All financial liabilities are recognized initially at fair value, for financial liability not subsequently measured at FVTPL, at

transaction costs that are directly attributable to the issue of financial liability.

**c. Subsequent Measurement**

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

**d. Financial liability at amortized cost**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Gain and losses are recognized in statement of profit and loss when the liabilities are derecognized.

Amortization cost is calculated by taking into account any discount or premium on acquisition and transaction cost. These amortization is included as finance cost in the statement of profit and loss.

This category generally applies to loans & borrowings.

**e. Financial liability at FVTPL**

Financial liabilities are classified at FVTPL when the financial liability is either contingent consideration recognized by the group as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designed as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gain or loss arises on re-measurement recognized in statement of profit or loss. The net gain or loss recognized in statement of profit or loss incorporates any interest paid on the financial liability.

**f. Equity Instrument**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the group are recognized at the proceeds received, net of direct issue cost.

Repurchase of the group's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue, or cancellation of the group's own equity instruments.

**g. De-recognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amount recognized in the Statement of Profit and Loss.

**h. Offsetting of financial instrument**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

**K. Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, cheques on hand, deposits held at call with banks, balance with banks on current account and short term, highly liquid investments with an original maturity of three months or less that are readily convertible to cash and which are subject to an insignificant risk of changes in value.

For the purpose of statement of cash flow, cash and cash equivalents consist of cash and short term deposits, net of outstanding bank overdraft as they being considered as integral part of the group's cash management.

#### **L. Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the group and the revenue can be reliably measured.

##### **Sale of Goods**

The Group derives revenue primarily from, sale of sugar and other by-products produced from processing of sugar cane, and sale of chemical, liquor etc. Revenue from sale of goods is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration, the group expect to receive in exchange of those products or services. Revenue is inclusive of excise duty and excluding estimated discount and pricing incentives, rebates, other similar allowances to the customers and also excluding value added taxes, goods and other taxes and amounts collected on behalf of third parties or government, if any.

##### **Revenue from Contracts**

Revenue from contracts with customers is recognised upon satisfaction of performance obligation by transferring of control of promised products or services to customers at an amount of the transaction price that is allocated to that performance obligation. The transaction price is the amount that the Group expects to be entitled to in exchange of transferring promised goods or services to a customer.

The Group identifies each performance obligation at contract inception to determine whether it satisfies the performance obligation over time or at a point of time. Accordingly:

- Revenue related to fixed price maintenance and support services contracts where the Group is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct third party equipment is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue from Power generation is recognised on accrual basis as per terms of Power Purchase Agreement (PPA) with Uttar Pradesh Power Corporation Limited. The normal credit term is 30 days upon delivery.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and

incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Group considers the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any).

##### **Variable consideration**

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The terms of power efficiency adjustment on sale of power in contracts with customer give rise to variable consideration.

Group's contract with customers does not contain any significant financing component or non- cash consideration or right to return with customers.

##### **Contract balances**

###### **Contract assets**

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. The contract assets are shown as "Unbilled Income".

###### **Trade receivables**

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

###### **Contract liabilities**

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract. Contract liabilities are shown as "Advance from Customers".

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

##### **Interest Income**

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to the group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's

net carrying amount on initial recognition.

**Dividend Income**

Dividend income is recognized when the Group's right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably i.e. in case of interim dividend, on the date of declaration by the Board of Directors; whereas in case of final dividend, on the date of approval by the shareholders.

**Export Incentives**

Export incentives are accounted for in the year of exports based on eligibility and when there is no significant uncertainty in receiving the same.

**Insurance Claims**

Insurance claim are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

**Income from REC**

Income from REC is recognized to the extent approved and credited in company's favour by concerned authority in the account maintained with Renewable Energy Certificate Registry of India at the minimum expected realizable value, determined based on the rates specified under the relevant regulations. The difference between the amount recognized initially and the amount realized on sale of such RECs at the Power Exchange are accounted for as and when such sale take place.

**M. Expenses**

All expenses are accounted for on accrual basis.

**N. Foreign currency translations**

Consolidated financial statements have been presented in Indian Rupees (INR), which is Group's functional and presentation currency.

**i. Initial Recognition**

Transactions in foreign currencies are initially recorded at the functional currency spot rate prevailing at the date the transaction first qualifies for recognition.

**ii. Transactions and balances**

Monetary assets and liabilities related to foreign currency transactions outstanding at the balance sheet date are translated at the functional currency spot rate of exchange prevailing at the balance sheet date. Any income or expense arising on account of foreign exchange difference either on settlement or on translation is recognized in the Statement of Profit and Loss.

**O. Taxes**

**i. Income tax**

Income tax comprises current and deferred tax. It is recognized in statement of profit or loss except to the extent that it relates to a business combination or to an item recognized directly in equity or in other comprehensive income.

**ii. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the

best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on net basis or simultaneously.

**iii. Deferred tax**

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

- Temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. In case of a history of continuous losses, the group recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized, or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Minimum Alternate Tax (MAT) credits is recognized as deferred tax assets in the Balance Sheet only when the asset can be measured reliably and to the extent there is convincing evidence that sufficient taxable profit will be available against which the MAT credits can be utilized by the company in future.

## P. Impairment

### i) Non-financial assets

Goodwill and Intangible assets that have an indefinite useful life are not subject to amortization but are tested annually for impairment.

Other intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The carrying amount of assets is reviewed at each balance sheet date, if there is any indication of impairment based on internal/external factor. An asset is impaired when the carrying amount of the assets exceeds the recoverable amount. If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit or loss in the year in which an asset is identified as impaired.

An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

### ii) Financial assets

The group applies 'simplified approach' measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instrument and are measured at amortized cost e.g. loans, debt securities, deposits, and bank balance.
- Trade receivables:  
The application of simplified approach does not require the group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on life time expected credit loss at each reporting date, right from its initial recognition.

## Q. Earnings per share

Basic earnings per share are calculated by dividing the profit/loss for the year (before other comprehensive income), attributable to the equity shareholders, by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share are calculated by dividing the profit/(loss) for the year (before other comprehensive income), adjusting the after tax effect of interest and other financing costs associated with dilutive potential equity shares, attributable to the equity shareholders, by the weighted average number of equity shares considered for deriving basic earnings per share

and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares.

## R. Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement. Provisions are not recognized for future operating losses

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Group. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote.

A contingent asset is not recognized but disclosed, when possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

## S. Operating Segments

The Group's operating segments are established on the basis of those components of the Group that are evaluated regularly by the Board of Directors (the 'Chief Operating Decision Maker' as defined in Ind AS 108 - 'Operating Segments'), in deciding how to allocate resources and in assessing performance. These have been identified taking into account nature of products and services, the different risks and returns and the internal business reporting systems.

Revenue and Expenses have been identified to a segment on the basis of relationship to operating activities of the segment. Revenue and Expenses which relate to enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as "Unallocable".

Segment Assets and Segment Liabilities represent Assets and Liabilities in respective segments. Assets and Liabilities that cannot be allocated to a segment on reasonable basis have been disclosed as "Unallocable".

## T. Cash Flow Statement

Cash flows are stated using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of incomes and expenses associated with investing or financing flows. The cash flows from operating, investing and financing activities of the Group are segregated.

4. In the consolidated financial statement of the Company, limited reviewed financial results of Simbhaoli Power Private Limited (SPPL), a material subsidiary has been considered and consolidated only for the period of nine months ended December 31, 2019. The financial results of SPPL for the quarter ended March 31, 2020 have not been consolidated, as the annual financial statements/results of SPPL have not been finalized and approved till date by SPPL.

Consequently, the consolidated financial statements of the Company as at March 31, 2020 have been prepared by consolidation based on the figures reported in the limited reviewed standalone balance sheet of SPPL as at December 31, 2019. The transactions entered into between the Company and SPPL during the aforesaid three months' periods which have not been eliminated in the consolidated financial statements, have resulted in an increase in the total revenue by Rs. 1,366.13 lacs and Expenses by Rs. 733.92 lacs. Further, Increase in the balances of subsidiary of Rs. 271.81 Lacs has been included in consolidated balance sheet in respective assets heads.

5. Indian sugar industry has been facing difficulties on account of high sugar production in the country since 2016-17 resulting in surplus sugar. For the year ended March 31, 2020, and previous years, the Company has incurred losses due to high sugarcane costs fixed by the Government, and comparatively lower prices of finished goods which are also being regulated and controlled, and other external factors. The operations of the company though remained intact, however due to continuing losses, its net worth has been fully eroded resulting in failure in meeting its payment obligations to lenders and sugarcane farmers in terms of respective agreements and understanding.

Meanwhile, recognizing the industry requirements, the Government has implemented a number of measures to improve the financial health of the sugar industry, including support for liquidation of cane arrears, fixing minimum obligation for export to manage the sugar inventory, fixation of Minimum Support Price (MSP) of sugar, providing cash subsidies on production and export of sugar, and mandatory blending of ethanol with petrol at certain level with remunerative price of ethanol. In addition, pursuant to an order of Hon'ble High Court of Uttar Pradesh, pronounced in favour of sugar industry, the sugar industry as well as the Company is confident to receive much awaited amounts being accrued benefits due to it from state government under the erstwhile Sugar Promotion Policy 2004-09. All these measures are expected to reflect in revival of the sugar industry on sustainable basis.

Based on these positive steps, along with other internal measures, the management believes that operations at its manufacturing facilities will remain continued in the near foreseeable future on regular basis.

On account of delays in servicing of loans, the lenders to the Company have initiated recovery proceeding at various forums, including filing of application before National Company Law Tribunal under Section 7 of the Insolvency and Bankruptcy Code, 2016 by two of the lenders and approaching Debt Recovery

Tribunal (DRT) for recovery of their dues. One of the lenders had declared the Company and Guarantors to the credit facility, as willful defaulters, which has been set aside by the Hon'ble Chandigarh High Court. Against a criminal complaint filed by one of the lenders with the investigating agencies, the enforcement directorate had passed an attachment order against certain assets of the Company to the extent of Rs. 109.80 crores, against which the Company has preferred an appeal with the appropriate authority.

The Company has submitted a comprehensive debt resolution proposal with all the commercial banks and realignment of dues with other lenders, commensurating with its future cash flows. Majority of commercial lenders have shown their inclination to accept the debt resolution proposal of the Company.

#### Impact of COVID 19 Pandemic

The spread of COVID 19 pandemic and nationwide lockdown has caused disruption of supply chain across businesses and industries in India. Since the company is engaged in the manufacturing of essential commodities, timely steps taken by the government have ensured regular operations of the sugar mills in U.P. However, COVID -19 crisis, has adversely impacted domestic demand of sugar and ethanol during complete lockdown periods. Under the directives of Ministry of Home affairs and State Government, the Company has started manufacturing of hand sanitizers in its distillery divisions. The demand for the company's products is expected to recuperate with the gradual lifting of nationwide lockdown by the Government.

The Company has considered the potential impact of COVID 19 and related restrictions on the carrying amount of inventory, and financial and non-financial assets and based on the information available to it up to the date of approving the financial statements written down the value of inventory to net realizable value, wherever required, and made provisions in financial and non-financial assets. However, the impact of COVID 19 as well as negative outlook of sugar sector on the carrying amount of its Property, Plant and Equipments and consequential impairment could not be ascertained and provided for due to non-availability of requisite information on account of lockdown restrictions.

It is not possible to reliably estimate the future financial effect of the COVID 19 situation on the Company. The impact assessment is a continuing process given the uncertainties associated with nature and duration of current situation. The eventual impact may differ from what has been assessed by the Management as at the date of approval of these financial statements. The Company will continue to closely monitor any material change in future economic conditions and take appropriate action as may be required.

Considering the steps initiated for achieving turnaround of sugar sector, ongoing discussions with lenders for resolution of their dues and continuing regular manufacturing operations in near foreseeable future, these financial statements are continued to be presented on going concern basis, which contemplates realisation of assets and settlement of liabilities, in the normal course of business.

## 6. Contingent liabilities and commitments (to the extent not provided for):

- i) Claims against the Company not acknowledged as debts Rs. 620.01 lacs (Previous Year Rs. 1132.03 lacs).

<b>Total</b>	<b>620.01</b>	<b>1,132.03</b>

# In the above table figures of SPPL have not been consolidated. [Refer note no. 4]

All the above matters are subject to legal proceedings in the ordinary course of business. The legal proceedings, when ultimately concluded will not in the opinion of the management, have a material effect on operations or financial position of the Company.

The amount shown in Note No. 6 (i) above represent the best possible estimates arrived on the basis of demand raised by the claimant and does not include interest, if any, payable thereon from the date of demand. The uncertainties and timing of the cash flows are dependent on the outcome of different legal processes which have been invoked by the company or the claimants, as the case may be and, therefore cannot be estimated accurately. The Company does not expect any reimbursement in respect of above contingent liabilities.

- ii) The Hon'ble High Court of Uttar Pradesh has directed the State Government to determine the interest liability for the period of delayed payment of sugarcane price for sugar seasons 2012-13 to 2014-15 but no notice of demand has been so far made for the same. Further, no notice for demand has been received for the interest on delayed payment to sugarcane farmers for subsequent sugar seasons. Hence no provision for the same has been made in the books of accounts.
- iii) The Allahabad High Court vide Order dated 21.12.2017 stayed the retrospective operation of orders of UP State Government pertaining to waiver of society commission for earlier years. Considering the fact that no notice of demand for such society commission's amount has been served upon the company, the same has not been acknowledged as debts and no provision has been made. Based on the past industry practices, the management is confident that no liability will arise for the said periods.
- iv) There are numerous interpretative issues relating to the Supreme Court (SC) judgement on PF dated 28th February, 2019. The company will make provision, on receiving further clarity on the subject.
- v) Capital and other commitment
- Estimated value of contracts (net of advances) remaining to be executed on Capital account Rs. 750.24 lacs (Previous year Rs. 20.79 lacs). The Company has other commitments, for purchase / sales orders which are issued after considering requirements per operating cycle for purchase / sale of goods and services, employee benefits including union agreements in normal course of business. The Company does not have any other long-term commitments or material non-cancellable contractual commitments / contracts, which may have a material impact on the financial statements.

7. Disclosures required under Section 22 of the Micro, Small and Medium Enterprises Development Act, 2006 (MSMED ACT, 2006).

On the basis of supplier information available with the Group who have registered under the MSMED Act, 2006, the following are the details:

(₹ lacs)

S. No.	Description	As at March 31, 2020	As at March 31, 2019
1.	Principal amount remaining unpaid to any supplier as at the end of the accounting year.	272.30	57.64
2.	Interest due thereon remaining unpaid to any supplier as at the end of the accounting year.	17.06	12.80
3.	The amount of interest paid by the company in terms of section 16, of MSMED Act, 2006, along with the amounts of the payment made to the suppliers beyond the appointed day during the year.	-	-
4.	The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro, Small and Medium Enterprises Development Act, 2006	2.80	9.34
5.	The amount of interest accrued but not due during the year.	-	1.50
6.	The amount of further interest due and payable even in the succeeding period.	42.00	22.14

Dues to Micro and Small Enterprises have been determined to the extent such parties have been identified on the basis of information collected by the Management. This has been relied upon by the auditors.

8. The Special Resolution for reclassification of promoters' category was passed at 6th Annual General Meeting of the members of the Company. Thereafter, an application seeking reclassification of certain outgoing promoters from existing promoter group to the public category shareholders, in terms of provisions of regulation 31A (7) of SEBI (LODR) Regulations, 2015, was filed with SEBI/Stock Exchanges. The approval from SEBI/Stock Exchanges is awaited.
9. Certain banks had advanced Agri loans to sugarcane farmers through the erstwhile Simbhaoli Sugars Limited (ESSL) under the management and collection agreements and were provided Corporate Guarantee and post-dated cheques as security. These loans were to be repaid by the Company to the banks from the dues payable to sugarcane farmers against their supplies, but due to the overall downturn in the sugar industry and primacy to pay sugarcane dues ahead of all other payments, the Company could not repay these loans on the due date. Company had submitted a financial restructuring plan to its lenders in FY 2014-15. As per sanction of CDREG dated February 02, 2016 all the dues outstanding were proposed to be converted into term loans, subject to the consent of respective commercial banks. Two of the commercial banks have converted their dues into term loan in the financial year 2016-2017 and one of the commercial banks have converted their dues into term loan in financial year 2017-18.

Oriental Bank of Commerce (OBC), one of its banks, who has converted Agri Loan into corporate loan in aforesaid financial year 2016-17. Prior to such conversion, OBC arbitrarily classified

its outstanding Agri Loan as "Suspected Fraud" liability in March 2015 but subsequently, after following due process, including but not limited to obtaining specific permission from the Reserve Bank of India (RBI), and in consultation with all other Consortium Lenders, sanctioned and disbursed a corporate loan in February 2016 for liquidating the Agri Loans. In addition, in an application filed by OBC at the Debt Recovery Tribunal, OBC confirmed a simultaneous closure of the matter and a consented decree was passed.

OBC had arbitrarily initiated recovery actions against the Company for the restructured corporate loan including an application filed before National Company Law Tribunal (NCLT), Allahabad Bench and recently Punjab National Bank had also filed an application before NCLT, Allahabad Bench under Insolvency and Bankruptcy Code, 2016 for recovery of their dues, causing a serious threat to the value available to all the stakeholders. OBC, had declared company and guarantors as willful defaulters against which company and guarantors have contested such declaration in the Hon'ble Punjab and Haryana High Court and earlier this year such impugned order of OBC was Set Aside by Hon'ble High Court. While on a Show Cause Notice on Willful Default by Punjab National Bank to

company and its promoter, basis representations made before the screening committee and taking into account that forensic audit report of the Company, initiated by the Lenders, was also closed by unanimous consensus in Joint Lenders Meeting stating that there was no fraud or willful default, PNB has kept the declaration of willful default in Abeyance.

OBC had also filed a criminal complaint with the investigating agency declaring the credit facilities as "Suspected Fraud". The Company has denied any fraud on its part, provided adequate documentation for the same, while reiterating its commitment for repayment to all the lenders, basis future cash flows. Against such criminal complaint, the enforcement directorate had passed an attachment order against certain assets of the Company to the extent of Rs. 109.80 crores, against which the Company has preferred an appeal with the appropriate authority and the matter is sub-judice. The Company has sought legal advice in this matter and the legal advisors have opined that there have been various gross omissions and commissions at the banks' end including but not limited to OBC and that the Company should take appropriate action at the relevant forums at the required time.

10. The loans availed by the Company have been classified as Non-Performing Assets (NPA) by all the lenders and interest thereon is not being charged to the loan accounts by the commercial lenders as per circular of RBI. The Company has submitted a comprehensive debt resolution proposal with all the lenders, commensurating with its future cash flows. Majority of commercial lenders have shown their inclination to accept the debt resolution proposal of the Company and some of them had accepted the offered Earnest Money Deposit. Accordingly, interest expenses pertaining to commercial lenders, for the year ended March 31, 2020 amounting to Rs. 13,146.17 lacs (previous year ended March 31, 2019 Rs. 12,336.46 lacs) has not been recognized in the statement of profit and loss. A total amount of Rs. 37,454.23 lacs towards accrued interest has not been provided for in the books of accounts as at March 31, 2020. Since all the lenders have recalled their Credit Facilities during the last year, their principal and interest outstanding dues as at March 31, 2020 have been classified and shown under "Other Current Financial Liabilities". The terms of repayment, nature of security and overdue including unaccounted interest, if any, in accordance with existing agreements are as under:

## 12. Segment reporting

### i) Operating segments:

The company's operating segments are business segments, viz. sugar and alcohol, basis which chief operating decision maker (CODM) evaluates the company's performance and allocates resources.

### ii) Geographical segments:

Since the Company's activities/operations are primarily within the country and considering the nature of products it deals in, the risks and returns are same and as such there is only one geographical segment.

### iii) Segment accounting policies:

In addition to the significant accounting policies applicable to the business segments as set out in note 2 above the accounting policies in relation to segment accounting are as under:

#### a) Segment revenue and expenses:

Joint revenue and expenses of segments are allocated amongst them on a reasonable basis. All other segment

revenue and expenses are directly attributable to the segments.

#### b) Segment assets and liabilities:

Segment assets include all operating assets used by a segment and consist principally of operating cash, debtors, inventories and fixed assets, net of allowances and provisions which are reported as direct offsets in the balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities. Segment assets and liabilities do not include income taxes. While most of the assets/liabilities can be directly attributed to individual segments, the carrying amount of certain assets/liabilities pertaining to two or more segments is allocated to the segments on a reasonable basis.

#### c) Inter segment sales:

Inter segment sales between operating segments are accounted for at market price. These transactions are eliminated on consolidation.

**G. Risks related to defined benefit plans:**

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary overtime. Thus, the Company is exposed to various risks in providing the above benefits which are as follows:

- Interest rate risk:** The plan exposes the company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in increase in the value of the liability.
- Liquidity Risk:** This is the risk that the Company is not able to meet the short-term gratuity pay-outs. This may arise due to non-availability of enough cash / cash equivalent to meet the liabilities or holding of its liquid assets not being sold in time.
- Salary Escalation Risk:** The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
- Demographic Risk:** The Company has used certain mortality and attrition assumptions in valuation of the liability.
- Regulatory Risk:** Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20,00,000).
- Asset Liability Mismatching or Market Risk:** The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.
- Investment Risk:** The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

**Note:-** The above is a standard list of risk exposures in providing the gratuity benefit. The Company is advised to carefully examine the above list and make suitable amendments (including adding more risks, if relevant) to the same before disclosing the above in its financial statements.

**H. Method and Assumptions related terms:**

- Discount Rate:** Discount rate is the rate which is used to discount future benefit cash flows to determine the present value of the defined benefit obligation at the valuation date. The rate is based on the prevailing market yields of high quality corporate bonds at the valuation date for the expected term of the obligation. In countries where there are no such bonds, the market yields at the valuation date on government bonds for the expected term is used.

- Salary Escalation Rate:** The rate at which salaries are expected to escalate in future. It is used to determine the benefit based on salary at the date of separation.
- Attrition Rate:** The reduction in staff/employees of a company through normal means, such as retirement and resignation. This is natural in any business and industry
- Mortality Rate:** Mortality rate is a measure of the number of deaths (in general, or due to a specific cause) in a population, scaled to the size of that population, per unit of time.
- Projected Unit Credit Method:** The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The Projected Unit Credit Method requires an enterprise to attribute benefit to the current period (in order to determine current service cost) and the current and prior periods (in order to determine the present value of defined benefit obligations).

## 20. Financial risk management objectives

The Company's principal financial liabilities comprise loans and borrowings, trade payables and other payables. The main purpose of the financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and bank balances that derive directly from its operations. The Company also holds investments in equity shares and debentures of its subsidiaries and joint ventures.

The Company's activities expose it mainly to credit risk, liquidity risk and market risk. This note explains the sources of risks which the entity is exposed to and how it mitigates that risk.

### i) Credit risk

a. Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. Company is exposed to credit risk from trade receivables and deposits with banks. To manage this, Company periodically assesses the financial reliability of customers, taking into account factors such as credit track record in the market and past dealings with the Company for extension of credit to customer. Outstanding customer receivables are regularly monitored. Concentrations of credit risk are limited as a result of the Company's large and diverse customer base. Company has also taken advances and security deposits from its customer / agents, which mitigate the credit risk to an extent. The ageing of the trade receivables is given below:

(₹ lacs)

Particulars	As at March #31, 2020	As at March 31, 2019
Up to 6 months	9,275.76	13,036.05
More than 6 months	981.37	1647.92
<b>Total receivables</b>	<b>10,257.12</b>	<b>14,683.97</b>

# Figures of SPPL have been consolidated for nine months.

[Refer note no.4]

b. The impairment analysis is performed at each balance sheet date on individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The Company makes general provision for lifetime expected credit loss based on its previous experiences of provision/write off in the previous years.

The change in loss allowances for trade receivables, advances to suppliers and security deposits is as under:

(₹ lacs)

Particulars	Trade Receivables	Loan and Advances*	Security Deposits
<b>Provision as at March 31, 2018</b>	<b>244.80</b>	<b>40.77</b>	<b>27.50</b>

<b>Provision as at March 31, 2020</b>	<b>259.00</b>	<b>105.42</b>	<b>25.00</b>

\* includes advances to employees

C. Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which term deposits are maintained. Generally, term deposits are maintained with banks with which Company has also availed borrowings.

#### ii) Liquidity risk

Liquidity risk is the risk that a company may encounter difficulties in meeting its obligations associated with financial liabilities that are settled by delivering cash or other financial assets. Since the Company is making continuous losses, presently it monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs. The table below provides undiscounted cash flows towards financial liabilities into relevant maturity based on the remaining period at the balance sheet to the contractual maturity date.

#### iii) Market risk

The company is exposed to the risk of movements in interest rates, inventory price and foreign currency exchange rates that affects its assets, liabilities and future transactions. Market risks comprises of four types of risks such as:

#### a) Interest rate risks

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates

relates primarily to the Company's borrowings obligations with floating interest rates.

#### b) Commodity risk

Sugar industry being cyclical in nature, realisations get adversely affected during downturn. Higher cane price or higher production than the demand ultimately affect profitability. The Company has partly mitigated this risk adopting integrated business model by diversifying into distillation, for better price realisation of the by-products.

#### c) Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

The Company's exposure to the risk of changes in foreign exchange rates is limited to the Company's operating activities (when revenue or expense is denominated in a foreign currency), which are not material.

Foreign Currency exposures that are not hedged by derivative instruments or otherwise as follows:

Description	#As at March 31, 2020		As at March 31, 2019	
	Amount in foreign currency (Lacs)	Amount (₹ Lacs)	Amount in foreign currency (Lacs)	Amount (₹ Lacs)

Advance Received from Customer - USD	-	-	\$0.13	8.99

# Figures of SPPL have been consolidated for nine months.[Refer note no.4]

#### d) Regulatory risk

Sugar industry is regulated both by Central Government as well as State Government. Central and State Governments policies and regulations affect the sugar industry and the Company's operations and profitability. Distillery business is also dependent on the Government policy.

ii) Fair Value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognized and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Following methods and assumptions used to estimate the fair values:

- Fair value of cash and cash equivalents and short term deposits, trade and other short term receivables, trade payables, short term borrowings and other current financial assets and liabilities carried at amortized cost is not materially different from its carrying cost, largely due to the short-term maturities of these financial assets and liabilities

**Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

**Level 3:** Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There is no transfer from one level to another level during the year.

The following table provides the fair value measurement hierarchy of Group's assets and liabilities, grouped into Level 1 to Level 3 as described below:

22. The Integrated Casetech Consultants Private Limited (ICCPL) has been contesting legal cases against certain mala fide activities resulting from breach of fiduciary duties committed by certain previous directors/senior executives of the ICCPL by making false recommendations and setting-up parallel business entities in competitive areas.

During the earlier years, the ICCPL has initiated legal proceedings to make recoveries from such directors/senior executives in the appropriate legal forums. The said directors/senior executives had also initiated a legal case before the Hon'ble Company Law Board (CLB) against the ICCPL, which was dismissed on February 23, 2016, however, on application of such directors/senior executives in the previous year, the matter was again admitted for hearing by the Hon'ble National Company Law Tribunal (NCLT). In another suite filed by the ICCPL, Hon'ble High Court of Delhi had granted the injunctions to refrain such director/senior executives from making the mis-representations, that they are associated with the ICCPL in any manner to the public at large. The said matter is sub-judices and the recovery proceedings are in progress.

27. During the year, Uttar Pradesh Electricity Regulatory Commission ('UPERC') has notified UPERC (Captive and Renewable Energy Generating Plants) Regulations, 2019 ('CRE Regulations 2019') which has, inter alia, reduced the tariff applicable to bagasse-based generation plants in the state of Uttar Pradesh w.e.f. April 1, 2019 which is significantly lower than the prevailing tariff. As per CRE Regulations, such reduction in tariff was made by UPERC citing lower fixed and variable costs for these power plants. This reduction in tariff may have an adverse impact on the business and operations of Simbhaoli Power Private Limited ("SPPL"), a subsidiary company. The management of

SPPL believes that there are anomalies in the process of tariff fixation and this reduced tariff notified by UPERC is based on unrealistic assumptions and is contrary to past practices. SPPL, along with bagasse-based co-generators operating in the State, have filed a writ petition with Hon'ble High Court of Allahabad, Lucknow Bench, challenging CRE Regulations 2019 which have been accepted by the court. Pending outcome of the petition, the management of SPPL basis on opinion of legal counsel, is confident of relief from the Hon'ble High Court and suitable modification in CRE Regulations 2019 and thus does not expect the financial implications of this, if any, to be material.

SPPL has accounted for revenues from operations from April to September, 2019 at or basis pre CRE Regulations 2019 tariff rates. W.e.f. October 01, 2019, SPPL has billed and accounted for sale of power to the Uttar Pradesh Power Corporation Limited ('UPPCL'), the customer of SPPL, at reduced tariff rate under protest and subject to outcome of Hon'ble High Court decision on writ petition.

SPPL's computation, shows that revenue from operations for the nine months ended December 31, 2019 would have been lower by Rs. 796.16 lacs and cost of material consumed for the nine months ended December 31, 2019 would have been lower by Rs 51.91 Lacs, if accounted for at or basis reduced tariff as per CRE Regulations 2019. Considering the current status and the matter is sub-judice, it is not possible for the management of SPPL to estimate the extent of the change, if any, in the tariff.
